## A Message from the Principal

Dear Crestdale Middle School families:

This is the first School Progress Report for Crestdale Middle. The purpose of the report is to keep families fully informed about our students' academic progress, our staff and our school environment.

Our staff is committed to creating an environment that meets the unique needs of middle school students. Our teachers understand the characteristics of adolescents and strive to help them develop socially as well as academically. We provide students a curriculum that is challenging, relevant, integrative and exploratory.

At Crestdale, students are assigned to academic teams with two to six teachers. This creates a strong student-teacher relationship that promotes a sense of community. Teachers work collaboratively to make connections across curricular areas and differentiate instruction to ensure all students are challenged and receive the individual support they need. The application of quality instruction provides students the opportunity to develop and maximize their potential.

We offer a variety of fine arts, career and technology and foreign-language elective courses to enhance our students' middle school experience. Each year, they participate with enormous success in numerous academic competitions, including the Shakespeare Recitation Contest, Odyssey of the Mind, NC Geography Bee, NC Spelling Bee, American Jr. High School Mathematics Exam, National Academic League and Battle of the Books. We also emphasize the development of strong character by encouraging students to participate in local and national service projects.

During all but one of the last 10 years, Crestdale students have consistently performed at high levels as they achieved Expected or High Growth status. We are extremely proud of our students' academic success last year. We made 32 of our 33 Adequate Yearly

# CMS Accountability Measures

In this section, we are highlighting several key performance indicators for our school and its students.

## ► Adequate Yearly Progress (AYP)

Our school **DID NOT** make AYP  
(32 of 33 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). State test results are used to set AYP proficiency targets for every grade. Targets are set for the school as a whole, as well as for nine separate subgroups. The subgroups are: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. A school's attendance and graduation rates are also measured for AYP.

The subgroup measurements are intended to prevent an overall score from masking poor results by one or more subgroups. Because the number of subgroups can vary depending on a school's diversity, the number of targets varies also. Some schools may have only a few targets to meet; others may have as many as 41.

AYP is an all-or-nothing standard that says every target must be met. No Child Left Behind also requires that every student be proficient by the 2013-2014 school year.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ► ABC Designation

Our school's designation: **School of Distinction**  
(DID meet growth expectations)

**Proficiency: 83.0%**

The North Carolina ABCs program was introduced more than a decade ago to better target school improvement efforts. Two basic measures determine a school's designation: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a set standard of proficiency.

Schools are given one of seven designations (in descending order): Honor School of Excellence; School of Excellence; School of Distinction; School of Progress; No Recognition; Priority School; Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ► Average Growth

State Standard: 80%  
**Our School: 82.2%**

Each year, the state sets individual growth expectations for each student. A student is expected to perform as well, or better, on the End-of-Grade (EOG) assessment for the current year as he or she did, on average, during the previous two years. The Average Growth is calculated by comparing *actual* performance versus *expected* performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. A school classified as making expected growth would have a score of 80% or higher.

## ► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%  
**Our School: 60.2%**

This measurement assesses whether students have learned as much as they are expected to learn in one year. Expectations are set for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed their growth expectation. High growth is defined as a score of 60% or higher and having met expected growth.

## ► Amount of Growth for Students in the Lowest Achieving Group

**Our School: 82.1%**

Narrowing the achievement gap is widely recognized as one of the biggest challenges in public education. The lowest achieving group for CMS includes certain minority groups and those receiving free or reduced-price lunch. If lower-achieving students grow at a faster rate than better-achieving students, the achievement gap is narrowed. When the above percentage is higher than the Average Growth for the school (see Average Growth above), the school is closing the achievement gap.

## ► Positive Responses to Student Surveys

**Our School: 70.2%**

Student feedback is a subjective, but essential, component of the measure of our school's performance. We want all of our students to have a caring, supportive environment at school. This is a measure of the positive reaction from our students covering the areas of school safety, engagement and encouragement.

# ► Crestdale Middle School

*(Principal's message continued.)*

Progress (AYP) targets. AYP is the standard set for schools by the No Child Left Behind Act. In addition, 85.6 percent of our students were at or above grade level in math.

The state introduced a new reading test in 2007-2008. As a result of more rigorous expectations, reading scores declined across the state, including in CMS. Since the new test covers different material from that covered in the previous test, direct year-over-year comparisons are not necessarily accurate.

To ensure our students continue to achieve at high levels, teachers provide tutoring before and after school. We also use the inclusion model for our Exceptional Children and offer honors-level classes in math and language arts.

Crestdale has an extremely strong staff. Our team members are committed to our students and their own professional development. More than 25 percent of our teachers have master's degrees; 10 teachers and one

counselor are National Board-certified. Crestdale has three experienced guidance counselors who work with the same students through their middle school years.

Crestdale is fortunate to have strong parental support. Our PTA and school leadership team are involved in school-improvement initiatives and participate in a variety of volunteering activities. Our Arts Boosters, Band Boosters and Athletic Boosters programs help support our extracurricular and elective programs.

At Crestdale, our motto is, "We Dare to be Great!" We challenge our students, our parents and ourselves to achieve greatness by providing a safe and welcoming environment where all students can learn and achieve at high levels and develop into confident, socially responsible adolescents.

Sincerely,  
Avery Mitchell

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections.

In this report, you will notice how our school performed in the 2007-2008 school year compared to the stated 2010 goals. On page 3, you will also find an explanation of federal and state accountability measures with a specific emphasis on growth.

As educators and parents, we have a common goal of preparing our children to compete in an ever-growing global community. This goal requires constant dialogue between school and parents, so please feel free to contact the principal or any staff member at our school with your questions, concerns or suggestions.
