

▶ James Martin Middle School

A Message from the Principal

To our James Martin Middle School families:

This is the annual School Progress Report for James Martin Middle, part of the Governor's Village, a 200-acre campus that encompasses four state-of-the-art schools in the Northeast Learning Community. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

As you will see from this report, James Martin made Expected Growth under the North Carolina ABCs for the second consecutive year. Our students showed substantial academic growth, with a composite proficiency rate on the End-of-Grade tests of 44.1 percent (without retests), up from 39.8 percent the previous year. On the End-of-Course Algebra 1 test, 97.5 percent of our students demonstrated proficiency. For the first time last year, students who did not meet grade level initially were allowed to retake the tests.

I am pleased to report that, for the first time in our history, James Martin made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. Our students and staff are to be commended for their accomplishments.

All of our students have the opportunity to participate in elective classes, including health, physical education, band, drama, art, career and technical education, chorus and foreign languages. Additionally, Accelerated Reader has become part of our daily program to enhance students' reading skills.

James Martin is one of the largest middle schools in CMS, with nearly 1,300 students enrolled in 2008-2009. It is important that students feel safe and comfortable in such a large setting, so we have structured our building into three small schools to create a more

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

► Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(35 of 35 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

► ABC Designation

Our school's designation: **Priority School**
(DID meet growth expectations)

Proficiency: 55.4%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

► Average Growth

State Standard: 80%
Our School: 81.0%

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80% or higher.

► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%
Our School: 52.1%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

► Amount of Growth for Students in the Lowest Achieving Group

Our School: 80.4%

Are we helping our low achievers catch up? Historically, some poor and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the percentage for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

► Positive Responses to Multiple Student Survey Items

| | | |
|------------------------------|----------------------|------------|
| Our School's Results: | Safety | 80% |
| | Encouragement | 94% |
| | Engagement | 89% |

Do our students perceive this school as safe and welcoming? This measure is subjective—it is taken from a student survey.

▶ James Martin Middle School

(Principal's message continued)

intimate setting. We are particularly pleased with our score of 100 percent on last year's safe-school audits. Our faculty and staff work diligently to provide a secure, nurturing environment for everyone on our campus. In 2008-2009, we instituted a school-uniform code, which we feel will instill in our students a sense of belonging as well as promote good behavior.

James Martin is fortunate to count the University City YMCA among its partners. The YMCA provides a low-cost, after-school program, which includes study time.

Our faculty reflects the diversity of our community, and we are fortunate to have many veteran teachers working side by side with new members of our profession. Most of our teachers are experienced in working with middle school students and in meeting the unique needs of young adolescents. We have a

growing number of teachers with National Board certification and/or advanced degrees.

Our motto at James Martin is Passion, Purpose and Pride, and our staff and students work diligently to display those attributes in everything we do. We will continue to strive for excellence each day.

Sincerely,
Ayinde' Rudolph
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2008-09 school year in making progress on these seven goals. On page 3, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.
