

▶ McClintock Middle School

A Message from the Principal

To our McClintock Middle School families:

This is the second School Progress Report for McClintock Middle. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

We are excited to report that our students continue to make outstanding academic progress. For the second consecutive year, we achieved High Growth status and our proficiency rate on the state End-of-Grade tests exceeded 60 percent. As a result, McClintock's designation has moved from Priority School to School of Progress. Our next goal is for 80 percent of our students to be performing at or above grade level and move McClintock to School of Distinction status. We know that our students are capable of achieving this level of success; we also know that it will take the collaborative efforts of our school and our community to make this possible.

Also noteworthy is the fact that, for the first time in our history, McClintock made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. This shows that we are meeting the academic needs of our diverse student population. I am very proud of the hard work and commitment of our students, staff, parents and volunteers in helping to raise achievement levels at our school.

Like many other schools, McClintock has been affected by the economic downturn. More of our students are receiving free or reduced-price lunch and, as a result, McClintock has been designated a Title I school. We will receive federal funding to bring targeted support and resources to many of our students.

(Principal's message continued on back)

KEY FACTS

Data effective as of spring 2009

Principal

Pamela N. Espinosa
email: p.espinosa@cms.k12.nc.us

Grades

6 - 8

School Population

- 651 Students
- 47 Teachers
- 1 Assistant Principal
- 2 Counselors
- 1 Social Worker
- 26 Support Staff

Student Demographics

- 56.8% African American
- 13.4% White
- 21.4% Hispanic
- 3.4% Asian
- 5.1% Other
- 76.5% of students qualify for free or reduced-price lunch

Learning Community

¹ Not a CMS 2010 goal

² Based on responses to 2008-09 survey; multiple survey items may have been used to create a composite

³ Incidents per 100 students

⁴ Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

► Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(29 of 29 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

► ABC Designation

Our school's designation: **School of Progress**
(DID meet high growth expectations)

Proficiency: 60.3%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

► Average Growth

State Standard: 80%
Our School: 82.4%

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80% or higher.

► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%
Our School: 61.1%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

► Amount of Growth for Students in the Lowest Achieving Group

Our School: 81.3%

Are we helping our low achievers catch up? Historically, some poor and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the percentage for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

► Positive Responses to Multiple Student Survey Items

| | | |
|------------------------------|----------------------|------------|
| Our School's Results: | Safety | 80% |
| | Encouragement | 97% |
| | Engagement | 94% |

Do our students perceive this school as safe and welcoming? This measure is subjective—it is taken from a student survey.

▶ McClintock Middle School

(Principal's message continued)

At McClintock, we know that while academic success is critical, there are other elements to overall student success. This year, students will participate for one hour each week in a variety of activities designed to develop their leadership and problem-solving skills. For example, 20 students from each grade level were selected to undertake a week of leadership training with the Charlotte Coalition of Social Justice. These students meet weekly to work on projects that address issues of social justice in our school and our community.

We are continuing the Tuesday McClintock Family Nights where families are provided with transportation, dinner and childcare to support tutoring and parent classes. New for this school year is Family Literacy Night where, one night each week for 10 weeks, families meet to discuss reading and each child takes home books to build the home library.

Our vision statement at McClintock—Academic Excellence, Collaborative Environment, Strength in Diversity—encapsulates our belief that together, we can accomplish anything. I believe strongly in our children, our staff, our families and our community. I also believe that children benefit from a diverse learning environment that reflects modern society and the global marketplace.

McClintock is an exciting, vibrant and innovative school. We are on the move, and we hope that you will join us on our journey.

Sincerely,
Pamela Espinosa
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2008-09 school year in making progress on these seven goals. On page 3, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.
