

# ▶ South Charlotte Middle School

## A Message from the Principal

To our South Charlotte Middle School families:

This is the second School Progress Report for South Charlotte Middle. The purpose of this report is to keep our community informed of our students' progress, our staff and the school environment.

South Charlotte Middle has been designated an Honor School of Excellence, achieving High Growth on the North Carolina End-of-Grade and End-of-Course tests. We continue to see 94.3 percent of our students demonstrating proficiency. In 2008-2009, South Charlotte Middle made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act, by meeting all 33 of our targets.

Our school motto is, "Making the Best Better." In that respect, we analyze our school program to determine how we can increase achievement for all of our students, with special focus on several of our subgroups. In order to continue meeting the needs of our increasingly diverse student population, the staff has introduced new programs and strategies.

Our strategies include offering inclusive classes for both Exceptional Children and students with limited proficiency in English. At all three grade levels, our Exceptional Children's inclusion classes are taught by experienced inclusion teachers. Teachers on our inclusion-limited English proficiency teams are being trained in the Sheltered Instruction Observation Protocol. This is a well-articulated form of teaching designed to assist our teachers in working with English-language learners.

Please be assured that the teachers at South Charlotte Middle are focusing on all of our students and providing opportunities for

## KEY FACTS

*Data effective as of spring 2009*

### Principal

Christine Waggoner  
email: [c.waggoner@cms.k12.nc.us](mailto:c.waggoner@cms.k12.nc.us)

### Grades

6 - 8

### School Population

- 922 Students
- 52 Teachers
- 2 Assistant Principals
- 2 Counselors
- 23 Support Staff

### Student Demographics

- 13.0% African American
- 69.0% White
- 8.2% Hispanic
- 6.3% Asian
- 3.5% Other
- 17.1% of students qualify for free or reduced-price lunch

### Learning Community

<sup>2</sup>Based on responses to 2008-09 survey; multiple survey items may have been used to create a composite

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ► Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(33 of 33 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ► ABC Designation

Our school's designation: **Honor School of Excellence**  
(DID meet high growth expectations)

**Proficiency: 94.3%**

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ► Average Growth

State Standard: 80%  
**Our School: 84.4%**

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80% or higher.

## ► Students Making or Exceeding a Year's Worth of Growth

State Standard: 60%  
**Our School: 70.7%**

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ► Amount of Growth for Students in the Lowest Achieving Group

**Our School: 84.8%**

Are we helping our low achievers catch up? Historically, some poor and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the percentage for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ► Positive Responses to Multiple Student Survey Items

<b>Our School's Results:</b>	<b>Safety</b>	<b>93%</b>
	<b>Encouragement</b>	<b>95%</b>
	<b>Engagement</b>	<b>96%</b>

Do our students perceive this school as safe and welcoming? This measure is subjective—it is taken from a student survey.

*(Principal's message continued)*

them to move ahead academically. Challenge is provided via honors and standard-plus classes for students working at different levels of the academic continuum of achievement. Additional challenge can be found in one of our ninth-block enrichment classes, which include Speech and Debate, Leadership and Research and Experimental Design, to name just a few.

As one of the CMS principals granted Freedom and Flexibility with Accountability, I have used this autonomy to initiate two single-gender classes at each grade level. Our purpose is to determine how boys and girls learn differently, and to see if focused instructional strategies allow students to perform at a higher level. So far, the informal reports from students, parents and teachers have been extremely positive.

We are very fortunate at South Charlotte Middle to have a quality teaching staff, with 39 percent holding

advanced degrees and with an average experience of 9.5 years in education. These professionals are dedicated to providing an extremely strong academic program that includes a rich variety of topics and interests designed to meet the developmental needs of the early adolescent and to prepare your child to be competitive in high school.

Sincerely,  
V. Christine Waggoner  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2008-09 school year in making progress on these seven goals. On page 3, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.
