

# ▶ Albemarle Road Middle School

## A Message from the Principal

Dear Albemarle Road Middle School parents:

This is the third School Progress Report for Albemarle Road Middle. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

Albemarle Road is a Title I school, which means we receive extra funding based on our percentage of economically disadvantaged students. This allows the school to have smaller classes in language arts and math, provide extra tutoring for students and have access to additional instructional resources.

Albemarle Road offers the International Baccalaureate Middle Years Programme, a curriculum designed to help students develop the knowledge, understanding, attitudes and skills necessary to participate actively and responsibly in a changing world. This program encourages global thinking and interdisciplinary and service learning.

Turning to academic progress, you will see that the percentage of students at or above grade level in the whole school continues to increase each year. We are extremely proud of our students' academic success last year in achieving High Growth status. For the second consecutive year, the school made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act, by meeting all 29 of our targets.

We are committed to offering students a variety of opportunities to increase academic success. These include a type of sheltered instruction often used with English-language learners; it is available to all students at Albemarle Road. All teachers provide a 45-minute after-school tutoring session each week, and formal tutoring is offered in math and reading as part of the Extended Day program. Mi Casa Su Casa is a

## 2009-2010 KEY FACTS

Data effective as of spring 2010

### Grades

6 - 8

Albemarle Road Middle School is a partial International Baccalaureate magnet.

### School Population

- Students: **803**
- Classroom Teachers: **49**
- Support Staff:
  - 1 Assistant Principal
  - 3.5 English as a Second Language Teachers
  - 0.3 Speech Pathologists
  - 6 Exceptional Children Teachers
  - 0.5 Social Workers
  - 2.3 Academic Facilitators
  - 2 Counselors
  - 23 Other

### Student Demographics

- African-American..... **52.9%**
- White..... **5.7%**
- Hispanic..... **33.5%**
- Asian..... **4.1%**
- Other..... **3.7%**
- Economically..... **85.9%**  
disadvantaged students

### Additional Facts\*

- Per-pupil expenditure ..... **\$5,817**
- Teacher-to-pupil ratio ..... **1:18**
- Student-mobility rate ..... **23%**

*\*Click here for more information.*

*(Principal's message continued)*

partnership that offers services for Latino students and families. Finally, we participate in the Communities In Schools program, the nation's largest and most effective dropout-prevention network, which provides field trips, guest speakers, college exposure and community resources.

Our faculty is committed to helping all students achieve and become responsible global citizens. All teachers and paraprofessionals are highly qualified and understand the importance of being lifelong learners and, in turn, teaching those skills to their students. The staff participates in training that is designed to address needs within the school for students and staff. This allows staff members to increase their knowledge and sharpen instructional skills by working collaboratively.

At Albemarle Road, we are dedicated to the belief that everyone counts. This is reflected in every part

of our school from the classroom to the main office and beyond. We are working tirelessly to make the school a center for the community, doing whatever it takes for everyone who is part of the school to be successful. It is our goal to help each of our students reach full potential in a welcoming, nurturing environment.

Sincerely,  
Avery Mitchell

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

<sup>2</sup> Based on responses to surveys; multiple survey items may have been used to create a composite

<sup>3</sup> Incidents per 100 students

<sup>4</sup> Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(29 of 29 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ▶ ABC Designation

Our school's designation: **School of Progress (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	62%	66.8%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		82.2	84.2

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

## ▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 81.6      **Our School 2009-10: 83.7**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		59.3%	66.5%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	87.5%	85.1%
Encouragement	97.8%	96.3%
Engagement	94.4%	91.3%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

## ▶ Return-on-Investment Index

CMS Middle School Index: 59.4      **Our School Index: 49.8**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
