

▶ **Bain Elementary School**

A Message from the Principal

To our Bain Elementary School families:

This is the annual School Progress Report for Bain Elementary, part of our effort to keep families fully informed about our students' academic progress, our staff and our school environment.

The report shows an overall improvement in academic achievement on the End-of-Grade tests. Our composite performance proficiency rate (math and reading) in grades three through five was 92.1 percent, up from 90.8 percent the previous year. Our reading proficiency rate increased slightly from 89.5 percent to 89.9 percent, while our math proficiency rate remained strong at 94.1 percent. We showed tremendous growth in science proficiency on the End-of-Grade test by improving from 77.6 percent the previous year to an impressive 93 percent last year. Overall, we made High Growth, and our performance qualifies Bain as an Honor School of Excellence.

In addition, we made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act, by meeting all 17 of our subgroup targets. This shows that we are effectively educating all students regardless of race, ethnicity or socioeconomic status.

So how is Bain accomplishing this growth? First, our teachers use flexible grouping to differentiate student instruction based on individual needs. Last year, we also increased the availability and use of math tools in each classroom. In addition, we introduced the Math Investigations program in grades K-3, which emphasizes solving math problems through the strengthening of number-relationship skills and problem-solving strategies. This program will be integrated into our fourth-grade curriculum during the 2010-2011 school year and then into the fifth-grade curriculum the following year. Most importantly, teachers regularly work together to discuss student performance and devise strategies to improve teaching and learning.

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

School Population

- Students: **1,029**
- Classroom Teachers: **50**
- Support Staff:
 - 1 Assistant Principal
 - 1 English as a Second Language Teacher
 - 1 Speech Pathologist
 - 2 Exceptional Children Teachers
 - 1 Academic Facilitator
 - 1 Talent Development Teacher
 - 1 Counselor
 - 45 Other

Student Demographics

- African-American.....**9.9%**
- White..... **75.1%**
- Hispanic.....**5.5%**
- Asian.....**4.8%**
- Other.....**4.7%**
- Economically.....**20.2%**
disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$4,390**
- Teacher-to-pupil ratio **1:22**
- Student-mobility rate.....**9%**

► Bain Elementary School

(Principal's message continued)

We have worked to increase student achievement in reading by using many techniques and programs. The use of a national assessment of early literacy skills at the lower grades and formative assessment from the Imagine It curriculum drove our intensive reading program. Other programs included Accelerated Reader, a newly purchased leveled-reading library and End-of-Grade pals, where staff and parents were paired with selected students to prepare for the End-of-Grade tests. Moreover, in the weeks leading up to those very important tests, third- and fifth-grade teachers provided after-school tutoring.

Bain's staff is exceptionally well-established. Last year, 21 percent of our teachers were National Board-certified and 27 percent held advanced degrees. Additionally, we have very low staff turnover. Survey results consistently show that students feel safe and we earned a score of 100 percent on last year's safe-school audit.

Bain has an active PTA and benefits from the many volunteers who work throughout the school. We are an integral part of the town of Mint Hill and the community clearly feels a great sense of ownership and pride in Bain.

Bain is blessed with students, teachers, staff, parents and the local community having very high expectations for the school and themselves. By harnessing these expectations and energies, Bain will continue to pursue the highest in student achievement and instructional performance.

Sincerely,
John LeGrand
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

Bain Elementary School

PROGRESS REPORT

CMS 2010 Strategic Plan Goals	Key Performance Measures	CMS 2010 Goal	CMS Elem. Schools 2009 - 2010	Our School 2008 - 2009	Our School 2009 - 2010
High Academic Achievement ▶ Because of federal privacy regulations, the actual values for these measures are not shown if the percentage is greater than 95 percent or less than 5 percent. Disparity between socioeconomic groups is shown as a positive percentage when non-economically disadvantaged students outscore economically disadvantaged students; a negative percentage indicates the reverse. <i>Data effective as of 8/27/10</i>	▶ Students performing at or above grade level overall ¹	—	75.2%	90.8%	92.1%
	▶ Students performing at or above grade level in reading	95%	70.2%	89.5%	89.9%
	▶ Students performing at or above grade level in math	88%	82.3%	>95%	94.1%
	▶ Students performing at or above grade level in science	80%	68.6%	77.6%	93%
	Disparity between racial/ethnic groups in reading	10%	33.5%	18.9%	18.5%
	Disparity between racial/ethnic groups in math	10%	22.9%	9.4%	14.8%
	Disparity between racial/ethnic groups in science	10%	36.8%	23.8%	11.8%
	Disparity between socioeconomic groups in reading	10%	31%	11.3%	11.4%
	Disparity between socioeconomic groups in math	10%	19.1%	0.3%	6.9%
	Disparity between socioeconomic groups in science	10%	32.2%	22.5%	5.4%

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(17 of 17 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **Honor School of Excellence (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	90.8%	92.1%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		86.6	86.2

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 88.4 **Our School 2009-10: 86.2**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		72.2%	73.3%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	93%	97.7%
Encouragement	91.5%	99.3%
Engagement	91.1%	98.4%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 74.4**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)

For more information on our school's performance, visit <http://pmd.cms.k12.nc.us>
