

# **Barnette Elementary School**

## **A Message from the Principal**

To our Barnette Elementary School parents and community members:

This is the annual School Progress Report for Barnette Elementary. We are sending this to you so that you may be fully informed about our academic progress, our staff and our school environment.

We had quite a year at Barnette. On the End-of-Grade math test, 91.7 percent of our students demonstrated proficiency. This means that nine out of every 10 of our students in grades three, four and five were considered on grade level in math. In addition, Barnette made High Growth in math, which means that our students made more growth than expected. Congratulations to our students and staff.

Our school's total composite proficiency rate in reading was 83.1 percent. This means that more than four-fifths of our students in grades three, four and five were considered on grade level in reading.

In looking closely at our scores, we noticed a gap in reading expectations, as defined by state standards, between second and third grades. We will address this discrepancy in 2010-2011 by introducing several key strategies. First, our teachers will work together to identify the most essential components of the reading curriculum and create unit assessments to monitor the progress of each student on a quarterly basis. We will use these assessments to provide targeted instruction in small groups within our daily schedule. Our goal is to maintain a challenging and engaging learning environment for all of our students.

As you will see from this report, Barnette Elementary made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. We met all 19 of our goals.

*(Principal's message continued on next page)*

## **2009-2010 KEY FACTS**

*Data effective as of spring 2010*

### **Grades**

K - 5

### **School Population**

- Students: **735**
- Classroom Teachers: **36**
- Support Staff:
  - 1 Assistant Principal
  - 0.5 English as a Second Language Teachers
  - 1 Speech Pathologist
  - 1.5 Exceptional Children Teachers
  - 1 Academic Facilitator
  - 1 Talent Development Teacher
  - 1 Counselor
  - 36 Other

### **Student Demographics**

- African-American..... **15.9%**
- White..... **67.2%**
- Hispanic..... **7.3%**
- Asian..... **3.3%**
- Other..... **6.3%**
- Economically..... **19%**  
disadvantaged students

### **Additional Facts\***

- Per-pupil expenditure ..... **\$4,411**
- Teacher-to-pupil ratio ..... **1:22**
- Student-mobility rate ..... **0%**

*\*Click here for more information.*

# ▶ Barnette Elementary School

*(Principal's message continued)*

Barnette has well-trained and enthusiastic teachers, and our staff includes 34 certified teachers and eight instructional assistants. Our faculty and staff take pride in students' demonstrating strong character traits.

We continue to provide enrichment activities for our students, including after-school tutoring for select third- through fifth-grade students beginning in February. We also offer a variety of extracurricular activities such as chess club, Girls On The Run, Math Olympiad, News Crew and Student Council. In addition, our talent development program challenges high-performing students in grades two through five.

Barnette has enjoyed an exciting and rewarding year. Our staff is dedicated and nurturing, our students are eager to learn and our parents are wonderfully

supportive. We are confident that we will continue to see academic success this school year. As our student and staff populations increase in size, we will maintain our focus on raising student achievement in a warm and friendly learning environment.

Sincerely,  
Dianna Newman  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

# Barnette Elementary School

## PROGRESS REPORT

CMS 2010 Strategic Plan Goals	Key Performance Measures	CMS 2010 Goal	CMS Elem. Schools 2009 - 2010	Our School 2008 - 2009	Our School 2009 - 2010

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(19 of 19 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ▶ ABC Designation

Our school's designation: **School of Distinction (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	83.3%	87.1%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		82.8	<b>82.2</b>

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

## ▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 79.1      **Our School 2009-10: 80.3**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		59.8%	<b>61.2%</b>

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	95.1%	<b>96.7%</b>
Encouragement	99.3%	<b>100%</b>
Engagement	96.7%	<b>96.4%</b>

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

## ▶ Return-on-Investment Index

CMS Elementary School Index: 50.9      **Our School Index: 69.7**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
