

Berewick Elementary School

A Message from the Principal

To our Berewick Elementary School families:

This is the first School Progress Report for Berewick Elementary. We are sending this to you so that you may be fully informed about the progress of our students, the dedication of our staff and the support of our community partners who share our vision.

Our school opened in August 2009 and from day one, we have been living our school motto: "Building a Solid Foundation One Student at a Time." We opened not just the physical doors of a brand-new facility, but also the doors of learning to more than 550 students. We have assembled a group of diverse educators dedicated to providing the rigor and relevance required for student success.

Our inaugural year produced many accomplishments that we are proud to celebrate. First, we made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act, by meeting all 19 of our goals. We also made Expected Growth in reading and math. While we congratulate our students, staff and parents for their combined efforts in meeting our goals, we are working to encourage even more academic growth among our students. This year, we are focusing on improving teaching methods, incorporating technology into our lessons and effectively analyzing data to guide instruction.

Differentiating instruction, or teaching to individual learning needs, is one of our core educational beliefs. We also believe that narrowing the achievement gap and preparing our students to become 21st-century learners are non-negotiable goals.

This year, we are employing a number of strategies and tactics to promote continued academic growth. We are providing hands-on learning opportunities and flexible learning groups to stimulate higher-level questioning. Our teachers are using common assessments, grade-level team planning and inclusive Exceptional Children and

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

School Population

- Students: 558
- Classroom Teachers: 29
- Support Staff:
 - 1 Assistant Principal
 - 2 English as a Second Language Teachers
- 0.5 Speech Pathologists
- 1.5 Exceptional Children Teachers
- 2 Academic Facilitators
- 0.4 Talent Development Teachers
 - 1 Counselor
 - 25 Other

Student Demographics

- African-American..... 41.9%
- White..... 17.7%
- Hispanic..... 23.7%
- Asian..... 8.4%
- Other..... 8.2%
- Economically..... 62.2% disadvantaged students

Additional Facts*

- Per-pupil expenditure \$4,918
- Teacher-to-pupil ratio 1:21
- Student-mobility rate 19%

► Berewick Elementary School

(Principal's message continued)

talent development practices to make sure all students are learning at the appropriate levels. Finally, we have made significant investment in resources: a full-time K-5 science teacher, science and reading labs and programs such as Accelerated Reader and Study Island.

All of our teachers are highly qualified, and they are dedicated to the success of the students and indeed the entire Berewick school community. Half of our teachers have a master's degree or PhD. and 15 percent are National Board-certified. The staff averages 9.2 years of teaching experience.

Our success extends beyond the classroom. In collaboration with Mecklenburg County Parks and Recreation, with which we share our facility, we have hosted several events, including the 4-H Club Western Conference. Other community partners include DR Horton and Lowes. We also offer clubs and special teams to supplement students' educational experiences with social and cultural opportunities. Last year,

our students participated in Right Moves for Youth basketball, cheerleading, chess club, Math Olympiad and Mad Science, to name just a few.

At Berewick, we will continue to focus on academic, social and cultural excellence for our students. Staff will collaborate and provide rigorous and relevant data-driven instruction. Together with our parents and community partners, we will fulfill our vision of students achieving their fullest potential by building a solid foundation for future success.

Sincerely,
Cheryl Turner
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

²Based on responses to surveys; multiple survey items may have been used to create a composite

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(19 of 19 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **School of Progress (DID meet growth expectations)**

Proficiency:	2008-09	2009-10
	—	69.3%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		—	81.5

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: — **Our School 2009-10: 81.3**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		—	57.9%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

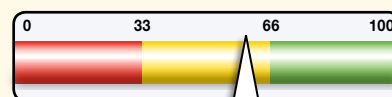

Our School's Results:	2008-09	2009-10
Safety	—	93.3%
Encouragement	—	100%
Engagement	—	99.7%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 59.9**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
