

# ▶ Bruns Avenue Elementary School

## A Message from the Principal

To our Bruns Avenue Elementary School families:

This is the third School Progress Report for Bruns Avenue Elementary and it is designed to inform you about our students' academic progress, our staff and our school environment.

The 2009-2010 school year was one of continued growth and success for Bruns. It was our second full year of a special initiative that saw changes in administration, staffing, focus, access to resources, expectations and student performance. This initiative, called Strategic Staffing, has already placed Bruns on a path of steady growth

Through our partnership with Communities In Schools, staff and students benefited from significant increases in materials, volunteers and community support. A new partnership with Family Dollar resulted in a commitment to provide one free uniform for every one of our students at the start of this school year.

Our PTA membership continues to increase, and turnouts at school functions and curriculum events are huge. While this is gratifying, ongoing parent involvement in our school leadership team remains a goal. Nonetheless, parents report greatly increased satisfaction with the education their children receive at Bruns.

Our main business, of course, is student learning. Two years ago, Bruns' test scores were among the lowest in CMS, but we have improved significantly. Our talented staff demonstrates a high level of commitment, energy and skill and has made major steps toward transforming our students' academic performance. End-of-Grade reading proficiency has increased by 10.7 percent (without retests) over the past two years, while math proficiency has increased by 9.6 percent (without retests) over the same period. The percentage of students scoring at the highest level (IV) on End-of-Grade reading and math tests has tripled, while the percentage scoring in the lowest level

*(Principal's message continued on next page)*

## 2009-2010 KEY FACTS

Data effective as of spring 2010

### Grades

K - 5

### School Population

- Students: **510**
- Classroom Teachers: **34**
- Support Staff:
  - 1 Assistant Principal
  - 1 English as a Second Language Teacher
  - 1 Speech Pathologist
  - 3 Exceptional Children Teachers
  - 0.5 Social Workers
  - 2.5 Academic Facilitators
  - 0.4 Talent Development Teachers
  - 1 Counselor
  - 25 Other

### Student Demographics

- African-American.....**89.6%**
- White.....**0.2%**
- Hispanic.....**5.7%**
- Asian.....**2.2%**
- Other.....**2.4%**
- Economically.....**96.9%**  
disadvantaged students

### Additional Facts\*

- Per-pupil expenditure .....**\$6,170**
- Teacher-to-pupil ratio .....**1:18**
- Student-mobility rate .....**35%**

*\*Click here for more information.*

# ► Bruns Avenue Elementary School

*(Principal's message continued)*

has been cut in half. As a result, Bruns received the designation of High Growth School under the North Carolina assessment program.

These accomplishments were due in no small part to the increased focus on quality team planning, heightened collaboration, extensive use of student data, staff training and higher expectations set for our students. To support these efforts, we employ up-to-date technology, including new computer workstations in our updated, 30-seat lab, our media center and in many classrooms. In addition, SMART Boards (interactive white boards) are in every third- through fifth-grade classroom.

I mentioned at the beginning of this letter that this was year two of our transformation. We are by no means satisfied with the very impressive growth we have already made. Half of our students are still performing below state proficiency standards. We are determined to build on the success of the last two years. We now have two full-time reading specialists and one math

facilitator. With new K-3 reading support programs called Reading BURST and Reading 3D, plus a new schoolwide, small-group, reading-support block every day, our goal is for reading scores to increase by an ambitious 18 percent this year. In addition, we are aiming for a jump of 13 percent in math scores.

Our professional development has focused on quality questioning strategies as well as teaching to individual student learning levels to better meet all students' needs. We will also continue to use class meetings to help students learn how to work as a productive, thriving school community where we live our motto, "Make Today Count."

Sincerely,  
Steve Hall  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

# Bruns Avenue Elementary School

## PROGRESS REPORT

CMS 2010 Strategic Plan Goals	Key Performance Measures	CMS 2010 Goal	CMS Elem. Schools 2009 - 2010	Our School 2008 - 2009	Our School 2009 - 2010
<p><b>High Academic Achievement</b></p> <p>▶ Because of federal privacy regulations, the actual values for these measures are not shown if the percentage is greater than 95 percent or less than 5 percent.</p> <p>Disparity between socioeconomic groups is shown as a positive percentage when non-economically disadvantaged students outscore economically disadvantaged students; a negative percentage indicates the reverse.</p> <p><i>Data effective as of 8/27/10</i></p>	▶ Students performing at or above grade level overall <sup>1</sup>	—	75.2%	43.4%	<b>48.8%</b>

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

## CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

### ▶ Adequate Yearly Progress (AYP)

Our school **DID NOT** make AYP  
(10 of 13 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

### ▶ ABC Designation

Our school's designation: **Priority School**  
(DID meet high growth expectations)

Proficiency:	2008-09	2009-10
	43.4%	48.8%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

### ▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		82.2	83.7

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

### ▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 87.6      **Our School 2009-10: 86.3**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

### ▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		58.1%	63.2%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

### ▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	86.8%	88.2%
Encouragement	96%	100%
Engagement	94%	98.1%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

### ▶ Return-on-Investment Index

CMS Elementary School Index: 50.9      **Our School Index: 45.6**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
