

# ▶ Collinswood Language Academy

## A Message from the Principal

To our Collinswood Language Academy families:

This is the School Progress Report for Collinswood Language Academy. We are sending this to you so that you may be fully informed about our students' progress, our staff and our school environment.

We are pleased to report that our dual-language program is well-developed and that our students continue to demonstrate strong academic performance on the state End-of-Grade standardized tests.

As you will see, 88 percent of our students in grades three through five achieved at or above grade level on the End-of-Grade reading test and more than 95 percent achieved at or above grade level in math.

At Collinswood, we believe in creating students who are bilingual and biliterate in Spanish and English. Our program maximizes proficiency in two languages and academic achievement. In kindergarten, the entire day is taught in Spanish, except for 45 minutes of English literacy instruction. In grades one through six, 50 percent of the day is comprised of reading, social studies and math, which are taught in Spanish. Science, reading and writing are taught in English during the remaining 50 percent of the day. The success of our dual-language program is evidenced by a high percentage of students performing at or above grade level in kindergarten through grade five.

Collinswood has more to offer than high test scores, however. The blending of the Latino/Hispanic and American cultures creates a multicultural school community where students learn through their respective languages. Our staff includes educators from 13 different Latin American countries and Europe. The richness of each teacher's culture provides students with an enhanced understanding of our global community.

*(Principal's message continued on next page)*

## 2009-2010 KEY FACTS

*Data effective as of spring 2010*

### Grades

- K - 5 (2009-2010)
- K - 6 (2010-2011)

Collinswood Language Academy is a full World Languages magnet.

### School Population

- Students: **519**
- Classroom Teachers: **29**
- Support Staff:
  - 1 Assistant Principal
  - 2.5 English as a Second Language Teachers
  - 0.5 Speech Pathologists
  - 1 Exceptional Children Teacher
  - 1 Academic Facilitator
- **0.6** Talent Development Teachers
- 1 Counselor
- 28 Other

### Student Demographics

- African-American..... **13.3%**
- White..... **18.5%**
- Hispanic..... **57.6%**
- Asian..... **1.2%**
- Other..... **9.4%**
- Economically ..... **57%** disadvantaged students

### Additional Facts\*

- Per-pupil expenditure ..... **\$5,336**
- Teacher-to-pupil ratio ..... **1:18**
- Student-mobility rate ..... **5%**

*\*Click here for more information.*

# ▶ Collinswood Language Academy

*(Principal's message continued)*

Collinswood was the first full K-6 dual-language program in North Carolina and has become a very appealing magnet school. In response to the popularity of our program, we are planning to add seventh and eighth grades over the next two years. We have found that acquisition of a second language leads to higher test scores, improved listening, increased memory retention and applied problem-solving skills.

Our teachers are trained to bring to the classroom effective instructional practices, quality projects and higher-level thinking skills.

Collinswood Language Academy is fortunate to have been designated as one of the 60 International Spanish Academies recognized by the Spanish Ministry of Education and Science of the Kingdom of Spain. This recognition provides our staff with additional Internet resources, specialized training and instructional materials. Students who successfully complete five to

six years of bilingual instruction are awarded a diploma from the Spanish Embassy in Washington, DC.

In 2010, Collinswood received the Magnet Schools of Excellence Award. This was our latest honor after being named a 2009 Magnet Schools of Distinction and receiving the NC Visiting International Faculty School of the Year Award in 2008.

We believe that the potential of each student is achieved through ongoing staff training, strategic planning, the effective use of assessments and quality instruction, coupled with the commitment of every staff member.

Sincerely,  
Nicolette Grant  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(21 of 21 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ▶ ABC Designation

Our school's designation: **Honor School of Excellence (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	89.4%	91%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		86.7	84.5

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

## ▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 86.2      **Our School 2009-10: 80.3**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		75.9%	67.7%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	98.9%	95.9%
Encouragement	100%	100%
Engagement	99.6%	99.4%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

## ▶ Return-on-Investment Index

CMS Elementary School Index: 50.9      **Our School Index: 56.3**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
