A Message from the Principal

To our Elizabeth Lane Elementary School families:

This is the annual School Progress Report for Elizabeth Lane Elementary. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment. We will also share our plans with you for the 2010-2011 school year.

We are extremely proud of our students' accomplishments, as more than 95 percent of our students scored at or above grade level on the 2009-2010 End-of-Grade assessments. On the math test, more than 95 percent of our students in grades three through five demonstrated proficiency, with 65 percent of those students meeting or exceeding their individual growth targets. On the reading test, more than 95 percent of students scored at or above grade level, with 55 percent meeting or exceeding individual growth targets. In science, more than 95 percent of fifth-grade students scored at or above grade level, a significant increase from 2008-2009. Because the state discontinued the writing test, no scores are available for fourth-grade writing. Overall, our End-of-Grade results indicate that the majority of our students are considered on grade level, with more than half actually performing above grade level.

We also made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. In addition, our students made High Growth for the 2009-2010 school year. This means that all of our student subgroups made more growth than expected compared to other schools in the state.

Initiatives for this school year include a continued emphasis on character education. Students will learn about the core character

(Principal's message continued on next page)

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

School Population

- Students: **1,025**
- Classroom Teachers: **49**
- Support Staff:
 - 1 Assistant Principal
 - 1 English as a Second Language Teacher
- 1.5** Speech Pathologists
- 2** Exceptional Children Teachers
- 1** Academic Facilitator
- 1.8** Talent Development Teachers
- 1** Counselor
- 44** Other

Student Demographics

- African-American.....**5.4%**
- White.....**76.4%**
- Hispanic.....**4.5%**
- Asian.....**10.1%**
- Other.....**3.6%**
- Economically.....**11.9%**
disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$4,320**
- Teacher-to-pupil ratio **1:22**
- Student-mobility rate.....**7%**

**Click here for more information.*

(Principal's message continued)

traits that support a respectful, responsible and caring learning environment. Additionally, we will continue to infuse rigorous and relevant learning experiences into our curriculum in order to prepare our students for success in the 21st century.

One of our challenges is to continue teaching to individual learning levels to meet our students' diverse needs while providing an engaging curriculum for all of our students. We plan to address these challenges by working together as a Professional Learning Community, maintaining a student-centered approach to decision making through the analysis and use of assessment data and developing lessons that meet the needs of all students.

At Elizabeth Lane, we offer a wide variety of before- and after-school clubs, such as chess, Chorus, TGA Golf, K-5 Kicking It Soccer, Play Spanish, Math Olympiad, Science Olympiad, Scrabble, Girls on

the Run, Kid Lit Book Club and Ambassadors for Character Education and Service. These activities, along with many others, will provide students with opportunities to explore interests outside the classroom.

We look forward to working with you as we strive to build a strong connection between school and home. With informed and involved families, enthusiastic and dedicated staff and bright, eager students, we will continue to realize today's potential for the success of tomorrow.

Sincerely,
Danielle M. Miller
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(21 of 21 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **Honor School of Excellence (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	94.4%	96.3%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		83.2	82.3

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 80.4 **Our School 2009-10: 80.4**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		62%	60.7%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	96.7%	94.5%
Encouragement	98.1%	97.2%
Engagement	98.1%	97.4%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 71.7**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)

For more information on our school's performance, visit <http://pmd.cms.k12.nc.us>
