

▶ Elizabeth Traditional Elementary School

A Message from the Principal

To our Elizabeth Traditional Elementary School families:

This is our third School Progress Report for Elizabeth Traditional Elementary. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

On the North Carolina End-of-Grade tests, our students' composite proficiency rates were 91.5 percent in math, 79.8 percent in reading and 86.4 percent in science. Math and science scores were up from the previous year.

Elizabeth Traditional made Expected Growth overall and High Growth in fourth- and fifth-grade math. Our school also made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act, by meeting all 17 of our targets. Our students and staff worked hard last year, and our parents provided much support as always in helping to raise academic achievement.

Although we are very pleased with these accomplishments, we are determined to keep analyzing our instructional program so that we may provide increased opportunities for learning. Our goal is for all students to have the necessary tools and support to progress in school.

Our staff participates in ongoing training to learn and employ best practices in teaching and learning. In addition, we use data for common assessments to better determine the instructional needs of our students.

We continue to provide additional opportunities, such as Accelerated Math and higher-level reading, to challenge and enrich high-performing students. At the same time, we provide targeted

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

Elizabeth Traditional Elementary School is a full Traditional magnet.

School Population

- Students: **549**
- Classroom Teachers: **31**
- Support Staff:
 - 1 Assistant Principal
 - 1 Speech Pathologist
 - 1 Exceptional Children Teacher
 - 1 Academic Facilitator
 - 1 Talent Development Teacher
 - 1 Counselor
 - 33 Other

Student Demographics

- African-American.....**55%**
- White.....**36.1%**
- Hispanic.....**2.4%**
- Asian.....**1.8%**
- Other.....**4.7%**
- Economically.....**34.1%**
disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$5,169**
- Teacher-to-pupil ratio **1:22**
- Student-mobility rate **2%**

► Elizabeth Traditional Elementary School

(Principal's message continued)

interventions and remediation, during and after school, to students needing extra help. In short, we are doing whatever it takes to help all of our students succeed.

Our faculty is strong and experienced. All of our teachers are highly qualified, eight are National Board-certified and a further three are in the process of obtaining certification. Elizabeth Traditional historically maintains a stable and highly dedicated group of teachers committed to student achievement.

In addition to pursuing academic goals, we remain driven by the traditional school values of character education and citizenship. We regularly recognize students when they demonstrate good character. Our Presidents' Council engages the student body in a variety of activities that showcase our students as caring citizens. This year, students and staff will participate in community-service projects each month.

I am confident that we will see continued academic growth in the 2010-2011 school year. For our part, we will continue to strive to meet the individual learning needs of all students. Please feel free to contact me or any member of the Elizabeth Traditional staff if you wish to learn more about our ongoing plan for academic growth and student success.

Sincerely,
Susan Spencer-Smith
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

Elizabeth Traditional Elementary School

PROGRESS REPORT

CMS 2010 Strategic Plan Goals	Key Performance Measures	CMS 2010 Goal	CMS Elem. Schools 2009 - 2010	Our School 2008 - 2009	Our School 2009 - 2010
High Academic Achievement ▶ Because of federal privacy regulations, the actual values for these measures are not shown if the percentage is greater than 95 percent or less than 5 percent. Disparity between socioeconomic groups is shown as a positive percentage when non-economically disadvantaged students outscore economically disadvantaged students; a negative percentage indicates the reverse. <i>Data effective as of 8/27/10</i>	▶ Students performing at or above grade level overall ¹	—	75.2%	82.2%	85.8%
	▶ Students performing at or above grade level in reading	95%	70.2%	81.8%	79.8%
	▶ Students performing at or above grade level in math	88%	82.3%	84.4%	91.5%
	▶ Students performing at or above grade level in science	80%	68.6%	76.9%	86.4%
	Disparity between racial/ethnic groups in reading	10%	33.5%	24.5%	23.6%
	Disparity between racial/ethnic groups in math	10%	22.9%	20.7%	16.7%
	Disparity between racial/ethnic groups in science	10%	36.8%	33.7%	20%

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(17 of 17 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **School of Distinction (DID meet growth expectations)**

Proficiency:	2008-09	2009-10
	82.2%	85.8%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		81.2	81.5

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 79 **Our School 2009-10: 79.9**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		54.9%	56%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	96.7%	90.2%
Encouragement	99.4%	96.6%
Engagement	99.4%	96.9%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 56**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
