

▶ Endhaven Elementary School

A Message from the Principal

To our Endhaven Elementary School families:

This School Progress Report for Endhaven Elementary is part of our continued effort to keep our families fully informed about our students' academic progress, our staff and our school environment.

On the North Carolina End-of-Grade tests, students who initially failed to meet grade-level proficiency are allowed to retake the tests. The results below include the retest scores.

On the reading test, 83.9 percent of our students scored at or above grade level. In math, an impressive 91.6 percent of Endhaven students showed proficiency and made High Growth. Our fifth-grade science scores indicated a proficiency rate of 86.4 percent. Overall, our school's End-of-Grade proficiency rate was 87.6 percent, achieving ABC High Growth status.

Endhaven made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act, by meeting all 17 of our targets. We were also recognized as a School of Distinction.

So what are we doing to build on our students' academic progress? We continue to differentiate instruction, a flexible teaching approach that adapts the curriculum to individual learning needs. Additionally, we are increasing our use of technology to promote learning and global competitiveness. This year, through our PTA's financial support, we purchased five SMART Boards (interactive white boards) to enhance classroom instruction. Our staff training this year will focus on increasing student literacy comprehension. Finally, we have formed grade-level teams to analyze data and formulate strategies to improve teaching and learning.

Our faculty is strong, with 100 percent of our teachers highly qualified and experienced. Twenty-eight percent of our teachers have obtained National Board for Professional Teaching Standards certification, and two teachers have been recognized as Professional

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

School Population

- Students: **690**
- Classroom Teachers: **34**
- Support Staff:
 - 1 Assistant Principal
 - 1 English as a Second Language Teacher
 - 1 Speech Pathologist
 - 2 Exceptional Children Teachers
 - 1 Academic Facilitator
 - 1 Talent Development Teacher
 - 1 Counselor
 - 39 Other

Student Demographics

- African-American..... **12.6%**
- White..... **57.5%**
- Hispanic..... **11.9%**
- Asian..... **11.9%**
- Other..... **6.1%**
- Economically..... **27.8%**
disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$4,752**
- Teacher-to-pupil ratio **1:21**
- Student-mobility rate **17%**

**Click here for more information.*

▶ Endhaven Elementary School

(Principal's message continued)

Development Master Teachers. Two other teachers are members of the Science, Technology, Engineering and Mathematics Coalition.

We continue to provide enrichment activities for our students, including a talent development program for grades two through five. We offer a variety of clubs and activities to support students' social and emotional growth, including an award-winning chess club, drama club, recorder club, Jazz Chorus, Girls on the Run, Play Spanish, Science Olympiad team and student council. We hold an in-house Battle of the Books program, multicultural fair and Science Fair Night. To support character education, we reward positive behavior and achievement with a Principal's Award and our 212° Award (so called because an extra degree of effort makes all the difference).

Endhaven has a safe, supportive and nurturing environment in which students and teachers treat each other with respect. We are also fortunate to have a very supportive and involved PTA. Our parents

support the school by serving as tutors, room parents, volunteers and committee representatives.

Endhaven takes the safety of our students and staff very seriously. This year we are focused on additional lock-down drills along with our monthly fire drills. Knowledge along with practice will enable Endhaven to increase our safe school audit score to 100 percent.

Endhaven Elementary is dedicated to maintaining high standards for academic performance and behavior. Our mission at Endhaven is to foster a nurturing, challenging, safe school environment that builds a foundation for lifelong learning.

Sincerely,
Dr. Rhonda Gomez
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

	Number of volunteer hours ⁴	Increase by 25% district-wide	235	309	294
	Number of business and community partnerships	Increase by 25% district-wide	580	4	3

¹Not a CMS 2010 goal

²Based on responses to surveys; multiple survey items may have been used to create a composite

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(17 of 17 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **School of Distinction (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	87.3%	87.6%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		82.9	82.7

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 81.1 **Our School 2009-10: 80.7**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		64.1%	64.3%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

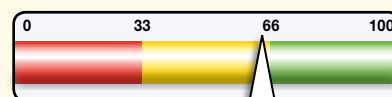

Our School's Results:	2008-09	2009-10
Safety	96.5%	92%
Encouragement	98.4%	99.2%
Engagement	97.8%	98.2%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 63.8**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)

For more information on our school's performance, visit <http://pmd.cms.k12.nc.us>
