

# Huntersville Elementary School

## A Message from the Principal

To our Huntersville Elementary School families:

This is the annual School Progress Report for Huntersville Elementary, part of our effort to keep families fully informed about our students' academic progress, our staff and our school environment.

Huntersville is a National Blue Ribbon School, and we continue to strive for excellence through a rigorous curriculum and high expectations for all staff and students. Teachers work in teams and provide cooperative learning experiences with the intent that all students may reach their full potential.

Huntersville achieved High Growth status last year. In 2009-2010, more than 95 percent of students were on grade level for math, and 90 percent were on grade level for reading. As a result, we met all of our goals and made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. Our academic performance last year means that we were successful in reaching all of our student subgroups; it also means that we attained the designation of Honor School of Excellence as defined by the state.

Huntersville continues to provide an individualized curriculum by flexibly grouping students for math and reading. This allows targeted skills to be addressed at individual students' performance levels. As our school grows in diversity, we are focusing on our English as a Second Language learners. We are also working this year to continue to provide outstanding extensions for our students in the talent development program.

Our entire faculty is designated highly qualified. Twenty-seven percent of our teachers currently hold National Board certification and 33 percent have advanced degrees (master's or higher). We continue to provide opportunities for teacher growth by offering outstanding professional development and workshops. Continuing learning by our staff ensures that your child receives the best and most current instruction.

*(Principal's message continued on next page)*

## 2009-2010 KEY FACTS

Data effective as of spring 2010

### Grades

K - 5

### School Population

- Students: **793**
- Classroom Teachers: **40**
- Support Staff:
  - 1 Assistant Principal
  - 1 English as a Second Language Teacher
  - 2 Speech Pathologists
  - 5 Exceptional Children Teachers
  - 1 Academic Facilitator
  - 1 Talent Development Teacher
  - 1 Counselor
  - 44 Other

### Student Demographics

- African-American..... **10.5%**
- White..... **76.2%**
- Hispanic..... **7.9%**
- Asian..... **1.1%**
- Other..... **4.3%**
- Economically..... **20.4%** disadvantaged students

### Additional Facts\*

- Per-pupil expenditure ..... **\$5,204**
- Teacher-to-pupil ratio ..... **1:22**
- Student-mobility rate ..... **11%**

# ▶ Huntersville Elementary School

*(Principal's message continued)*

I am one of a group of principals chosen to participate in a CMS initiative called Freedom and Flexibility with Accountability. This means I have been given additional freedom in making instructional decisions for Huntersville so that we may uphold our high standards and growth.

We will all continue to work as a community to raise student achievement. Again this year, we will offer Breakfast Buddies to provide tutorials for students before school. Our special-areas staff continues to offer additional instructional support, working with small groups or one-on-one with students.

I am confident our students will continue to excel in all areas. Huntersville values an environment of respect where teachers and students are treated fairly. We have a warm, supportive staff that continuously works to differentiate instruction to ensure all students' academic needs are met.

Huntersville has little staff turnover. Due to three retirements last year, however, we welcomed some new teachers to our family for 2010-2011. Our PTA continues to be the backbone of our school, generating funds to provide numerous resources and instructional classroom support to Huntersville.

Our school population, highly qualified teachers, a strong PTA and focused instructional programs that promote student learning lead to the remarkable level of success here at Huntersville each year. We are proud to be a Blue Ribbon School!

Sincerely,  
Deborah Mangieri  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

# Huntersville Elementary School

## PROGRESS REPORT

CMS 2010 Strategic Plan Goals	Key Performance Measures	CMS 2010 Goal	CMS Elem. Schools 2009 - 2010	Our School 2008 - 2009	Our School 2009 - 2010
<p><b>High Academic Achievement</b></p> <p>▶ Because of federal privacy regulations, the actual values for these measures are not shown if the percentage is greater than 95 percent or less than 5 percent.</p> <p>Disparity between socioeconomic groups is shown as a positive percentage when non-economically disadvantaged students outscore economically disadvantaged students; a negative percentage indicates the reverse.</p> <p><i>Data effective as of 8/27/10</i></p>	▶ Students performing at or above grade level overall <sup>1</sup>	—	75.2%	92.6%	<b>92.9%</b>

<sup>2</sup>Based on responses to surveys; multiple survey items may have been used to create a composite

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

## CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

### ▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(19 of 19 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

### ▶ ABC Designation

Our school's designation: **Honor School of Excellence (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	92.6%	92.9%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

### ▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		84.5	82.4

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

### ▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 85      **Our School 2009-10: 82.9**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

### ▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		66.5%	62.5%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

### ▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	98%	96.9%
Encouragement	100%	97.7%
Engagement	98.4%	98.7%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

### ▶ Return-on-Investment Index

CMS Elementary School Index: 50.9      **Our School Index: 56.4**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
