

▶ James Martin Middle School

A Message from the Principal

To our James Martin Middle School families:

This is the annual School Progress Report for James Martin Middle, part of the Governor's Village, a 200-acre campus that encompasses four state-of-the-art schools in the Northeast Zone. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

I am proud to announce that James Martin Middle did meet our growth expectations, both overall and in math. In other words, our students made the amount of growth expected under state standards. We are equally proud that our student achievement scores continue to increase. On the state End-of-Grade tests last year, 56 percent of our students performed at or above grade level. Better yet, more than 95 percent of students demonstrated proficiency on the End-of-Course algebra test.

We did not make Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. We did, however, meet 31 of our 35 targets. Although overall student achievement scores are rising, we are not satisfied because we know our students can and will do better.

James Martin is one of the largest middle schools in CMS, with nearly 1,300 students enrolled in 2009-2010. It is important that students feel safe and comfortable in such a large setting, so we have structured our building into three leagues with four teams. The teams of teachers are located in close proximity to each other, which helps create a more intimate setting.

(Principal's message continued on next page)

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

6 - 8

School Population

- Students: **1,278**
- Classroom Teachers: **68**
- Support Staff:
 - 2 Assistant Principals
 - 2 English as a Second Language Teachers
 - 0.1 Speech Pathologists
 - 10.5 Exceptional Children Teachers
 - 0.5 Social Workers
 - 3 Counselors
 - 34 Other

Student Demographics

- African-American.....**68%**
- White.....**5.2%**
- Hispanic.....**18.2%**
- Asian.....**3.7%**
- Other.....**4.9%**
- Economically**76%** disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$4,577**
- Teacher-to-pupil ratio **1:21**
- Student-mobility rate.....**26%**

**Click here for more information.*

▶ James Martin Middle School

(Principal's message continued)

We are particularly pleased with our score of 100 percent on last year's safe-school audits. Our faculty and staff work diligently to provide a secure, nurturing environment for everyone on our campus. Two years ago, we instituted a school-uniform code, which we feel instills in our students a sense of belonging as well as promotes good behavior.

James Martin is delighted to have many community partnerships providing invaluable support to the school. Our partners include the University of North Carolina at Charlotte and Hands On Charlotte.

Our faculty reflects the diversity of our community, and we are fortunate to have many veteran teachers working side by side with new members of our profession. Most of our teachers are experienced

in working with middle school students and in meeting the unique needs of young adolescents. We have a growing number of teachers with National Board certification and/or advanced degrees.

Our motto at James Martin is Whatever It Takes, Become Legendary, and our staff and students work diligently to espouse that idea in everything we do.

Sincerely,
Ayindé Rudolph
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

James Martin Middle School

PROGRESS REPORT

CMS 2010 Strategic Plan Goals	Key Performance Measures	CMS 2010 Goal	CMS Middle Schools 2009 - 2010	Our School 2008 - 2009	Our School 2009 - 2010
High Academic Achievement ▶ Because of federal privacy regulations, the actual values for these measures are not shown if the percentage is greater than 95 percent or less than 5 percent. Disparity between socioeconomic groups is shown as a positive percentage when non-economically disadvantaged students outscore economically disadvantaged students; a negative percentage indicates the reverse. <i>Data effective as of 8/27/10</i>	▶ Students performing at or above grade level overall ¹	—	75.5%	55.4%	56.5%
	▶ Students performing at or above grade level in reading	95%	69.9%	50.2%	48.8%
	▶ Students performing at or above grade level in math	88%	81%	58.5%	63.3%
	▶ Students performing at or above grade level in Algebra 1 ¹	—	>95%	—	>95%
	▶ Students performing at or above grade level in science	80%	70.3%	56.4%	56.3%
	Disparity between racial/ethnic groups in reading	10%	33.8%	20.1%	29.1%

³ Incidents per 100 students

⁴ Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

► Adequate Yearly Progress (AYP)

Our school **DID NOT** make AYP
(31 of 35 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

► ABC Designation

Our school's designation: **Priority School**
(**DID meet growth expectations**)

Proficiency:	2008-09	2009-10
	55.4%	56.5%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

► Average Growth

State Standard	Our School:	2008-09	2009-10
80		81	82

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

► Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 80.4 **Our School 2009-10: 81.5**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

► Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		52.1%	58.8%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

► Positive Responses to Student Survey Items

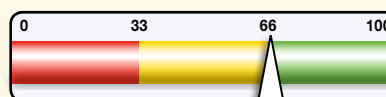

Our School's Results:	2008-09	2009-10
Safety	79.9%	79.7%
Encouragement	94.4%	92.4%
Engagement	89%	89.5%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

► Return-on-Investment Index

CMS Middle School Index: 59.4 **Our School Index: 66.3**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)

For more information on our school's performance, visit <http://pmd.cms.k12.nc.us>
