## A Message from the Principal

To our Montclair Elementary School families:

This is the annual School Progress Report for Montclair Elementary. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

We are proud of the hard work and achievements of our staff and students. During the 2009-2010 school year, 75 percent of our students performed at or above grade level on the End-of-Grade math test and 53 percent of students demonstrated proficiency on the reading test. In addition, 52.6 percent of fifth-grade students performed at or above grade level on the science test. We are also pleased that Montclair made Expected Growth last year. While there is definitely room for improvement, we celebrate the progress made by a majority of our students.

Montclair takes a we-can-overcome approach to the challenges we face. We believe that every child can and will achieve at high levels of academic success when given adequate resources and opportunities. We also believe that, as educators and lifelong learners, it is our responsibility to always seek out better ways to improve our instructional program to more precisely meet our students' needs.

Montclair Elementary is known for its nurturing and positive learning climate, as well as its dedicated and experienced staff. This year, we are focusing on effective standards-based instructional planning to capitalize on the instructional strengths of all teachers. Common assessments will be developed at each grade level in an effort to monitor student comprehension and provide immediate intervention and enrichment to support student learning.

On our journey of continuous improvement, we have chosen to focus on improving our students' reading skills. In this respect, we are using a number of strategies such as Sheltered Instruction Observation Protocol,

*(Principal's message continued on next page)*

## 2009-2010 KEY FACTS

Data effective as of spring 2010

### Grades

K - 5

### School Population

- Students: 460
- Classroom Teachers: 27
- Support Staff:
  - 1 Assistant Principal
  - 4.5 English as a Second Language Teachers
  - 1 Speech Pathologist
  - 2 Exceptional Children Teachers
  - 0.5 Social Workers
  - 3 Academic Facilitators
  - 0.4 Talent Development Teachers
  - 1 Counselor
  - 31 Other

### Student Demographics

- African-American..... 18.3%
- White..... 4.1%
- Hispanic..... 71.1%
- Asian..... 2.8%
- Other..... 3.7%
- Economically..... 95.2%  
disadvantaged students

### Additional Facts\*

- Per-pupil expenditure ..... \$7,304
- Teacher-to-pupil ratio ..... 1:17
- Student-mobility rate ..... 26%

*\*Click here for more information.*

*(Principal's message continued)*

which helps our English-language learners understand content more easily, guided reading and targeted observations. Our teachers receive ongoing professional development and we are safeguarding instructional time in literacy. This year, we are using student data to guide what we teach, how we teach and how we allocate resources to best support our students' needs.

At Montclair, we are committed to meeting the needs of all of our learners. Currently, we have five full-time teachers of English as a Second Language, two Exceptional Children teachers and a talent-development teacher. Our special-area teachers are working with grade-level teams to integrate the arts, technology and physical fitness across the curriculum. In addition, all teachers will be provided curriculum resources and support from two highly qualified academic facilitators.

Lastly, at Montclair Elementary we know that partnering with parents is essential to success in

student learning. We will increase our parent learning opportunities and continue our Parent Resource Center. By helping our parents support their children at home and providing them with the necessary resources, we know that our students will make even further gains

As a Title I school, we are proud of what we have accomplished with our students. Our staff has consistently shown that they are willing to do whatever it takes to meet the needs of our students. If there is anything we can do to support you in working with your children, please let us know.

Sincerely,  
Paul B. Barnhardt  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

<sup>2</sup>Based on responses to surveys; multiple survey items may have been used to create a composite

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(19 of 19 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ▶ ABC Designation

Our school's designation: **School of Progress (DID meet growth expectations)**

Proficiency:	2008-09	2009-10
	59.3%	62.2%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		81.8	82.8

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

## ▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 81.5      **Our School 2009-10: 81.8**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		56.3%	58.6%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	92.9%	94.2%
Encouragement	96.7%	100%
Engagement	97.5%	95.7%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

## ▶ Return-on-Investment Index

CMS Elementary School Index: 50.9      **Our School Index: 34.9**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
