

# ▶ Mountain Island Elementary School

## A Message from the Principal

To our Mountain Island Elementary School families:

This is the third School Progress Report for Mountain Island Elementary, part of our effort to keep families fully informed about our students' academic progress, our staff and our school environment.

As you will see, Mountain Island had a proficiency rate on the state End-of-Grade math test of 88.2 percent and a proficiency rate of 78.5 percent in reading. We achieved High Growth and are now recognized as a North Carolina School of Distinction. Our fifth-grade science scores jumped from a proficiency rate of 69.3 percent in 2008-2009 to 80 percent last year. We showed improvement in all academic areas and are very pleased with our results.

We saw gains across all of our subgroups, and are pleased to announce that we made Adequate Yearly Progress (AYP), the standard set for schools by the No Child Left Behind Act, for the second year in a row. Mountain Island is a diverse, comprehensive elementary school which means that we have many targets to meet for AYP—17 in all, and we met all of them.

So what are we doing to improve our students' academic progress? We are using differentiated instruction, a flexible teaching approach that adapts the curriculum to individual learning needs. We have decided to continue to departmentalize in grades four and five so that we may offer our children longer instructional blocks with less transition. Teachers in these grades will specialize in math and science or literacy/writing and social studies. We are continuing to use Thinking Maps and Accelerated Reader as major instructional initiatives. This year, we are focusing on instilling more rigor across the curriculum. This will create a challenging environment in which each student is expected to learn at high levels, demonstrate critical-thinking skills and assume responsibility for learning. This summer,

*(Principal's message continued on next page)*

## 2009-2010 KEY FACTS

Data effective as of spring 2010

### Grades

K - 5

### School Population

- Students: **830**
- Classroom Teachers: **47**
- Support Staff:
  - 1 Assistant Principal
  - 1 English as a Second Language Teacher
  - 1.5 Speech Pathologists
  - 2 Exceptional Children Teachers
  - 2 Academic Facilitators
  - 1 Talent Development Teacher
  - 1 Counselor
  - 42 Other

### Student Demographics

- African-American..... **40.4%**
- White..... **43.3%**
- Hispanic..... **5.5%**
- Asian..... **3.6%**
- Other..... **7.2%**
- Economically..... **42.4%** disadvantaged students

### Additional Facts\*

- Per-pupil expenditure ..... **\$5,097**
- Teacher-to-pupil ratio ..... **1:20**
- Student-mobility rate ..... **45%**

*\*Click here for more information.*

# ▶ Mountain Island Elementary School

*(Principal's message continued)*

our staff received top-notch training in a program called Infusing Rigor Without Fears and Tears and will introduce the ideas and strategies learned throughout the school year.

Our faculty is strong, with many of our teachers highly qualified and experienced. We have a large number of National Board-certified teachers spread out across the grade levels. This will help continue to raise our academic achievement levels.

All of us will continue to work on raising achievement. Our students performing below grade level in grades K-3 will receive extra daily support through our Intensive Reading Program. We will also provide instructional time during the day to those fourth- and fifth-grade students struggling with math and reading.

I am confident we will continue to see improvement in student achievement. Mountain Island has a

supportive, safe environment in which students and teachers treat each other with respect. That will continue.

We will also continue to seek out support from the greater school community. Mountain Island has always enjoyed the support of a vibrant PTA that contributes to the overall success of the school.

At Mountain Island, our ultimate goal is to provide an optimal learning environment to best prepare our students for an increasingly diverse global community. We firmly believe it takes the power of T.E.A.M. (Together Everyone Achieves More) to accomplish that goal.

Sincerely,  
Jeff Ruppenthal  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

## CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

### ▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(17 of 17 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

### ▶ ABC Designation

Our school's designation: **School of Distinction (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	78%	82.9%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

### ▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		80.6	83

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

### ▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 82.9      **Our School 2009-10: 82.9**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

### ▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		54.5%	63.7%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

### ▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	91.6%	94.2%
Encouragement	97.1%	98.7%
Engagement	94.4%	93.4%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

### ▶ Return-on-Investment Index

CMS Elementary School Index: 50.9      **Our School Index: 58.5**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
