

▶ Northeast Middle School

A Message from the Principal

To our Northeast Middle School families:

In an effort to keep our school community informed about our students' academic progress, our faculty and our school environment, we are sending you the third Northeast Middle School Progress Report.

During the 2009-2010 school year, 74.5 percent of Northeast's students performed at or above grade level on End-of-Grade tests in math, reading, computer skills and science.

Last year, Northeast did not make Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. We were, however, successful in meeting 27 of our 29 targets. In addition, we made High Growth for the second consecutive year by raising our performance composite from 72.9 percent to 74.5 percent. We are very close to reaching our goal of becoming a School of Distinction.

Parent survey results show that more than 80 percent of our families feel they receive regular communications from the school and the principal and that the administrative team is readily available.

Northeast continues to lead the way in innovative learning by taking a 21st-century approach to educating every student using interactive technology and research. This summer, we received eight SMART Boards (interactive white boards) through grant funding, the result of a study indicating that instructional technology leads to increased student achievement and creates a more interactive learning environment.

We are participating in the Measures of Effective Teaching project, an independent study funded by The Bill & Melinda Gates Foundation which focuses on teaching and learning practices that impact student achievement. We have 15 teachers and more than 300 families who have agreed to be part of this two-year study.

Northeast boasts a dedicated and experienced staff, with a large majority of our teachers highly qualified. In addition, we have two

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

6 - 8

School Population

- Students: **860**
- Classroom Teachers: **46**
- Support Staff:
 - 2 Assistant Principals
 - 1 English as a Second Language Teacher
- 0.3** Speech Pathologists
- 11** Exceptional Children Teachers
- 0.5** Social Workers
 - 1 Academic Facilitator
 - 2 Counselors
- 30** Other

Student Demographics

- African-American..... **40.5%**
- White..... **34.5%**
- Hispanic..... **17.3%**
- Asian..... **2.7%**
- Other..... **5.0%**
- Economically..... **61.7%** disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$5,202**
- Teacher-to-pupil ratio **1:19**
- Student-mobility rate **16%**

**Click here for more information.*

▶ Northeast Middle School

(Principal's message continued)

outstanding and experienced assistant principals, two veteran counselors, a dean of students and an active leadership team.

The Northeast faculty is divided into teams that focus on specific groups of students. These teams are reorganized each year to ensure we are using the instructional skills that maximize student learning. We offer the Eagle Academy, which provides extensive after-school tutoring for students performing below grade level in reading and math. Additionally, our Parent Academy offers monthly workshops on a variety of parenting topics. At the end of the school year, we hold a Backyard Bash to help parents and students prepare for End-of-Grade testing.

In order to reach every child, Northeast offers several honors-level courses, a variety of clubs, an award-winning fine arts program and many extracurricular athletic options. These programs are crucial to strengthening the core values that we feel are essential to a child's success.

The administrative team and faculty are confident that we will continue to see growth in student achievement as we move closer to becoming a School of Distinction. Northeast has a supportive, orderly environment in which students and teachers treat each other with dignity and respect. Faculty and staff remain at Northeast because it is a successful middle school that prides itself on a positive school climate. At Northeast, we believe that when students, parents and faculty work together, we can reach our final goal of moving from good to great.

Sincerely,
Lane Price
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

³ Incidents per 100 students

⁴ Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID NOT** make AYP
(27 of 29 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **School of Progress (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	72.9%	74.5%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		83.3	83

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 77.9 **Our School 2009-10: 83.6**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		64.6%	63.6%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	85.8%	87.4%
Encouragement	94.6%	96.6%
Engagement	92.4%	93.8%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Middle School Index: 59.4 **Our School Index: 56.9**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)

For more information on our school's performance, visit <http://pmd.cms.k12.nc.us>
