

▶ Pinewood Elementary School

A Message from the Principal

To our Pinewood Elementary School families:

I am pleased to share with you the annual School Progress Report for Pinewood Elementary. As you already know, Pinewood is a winning team with outstanding students, committed teachers and dedicated parents who are all focused on the same goal: high student achievement. The purpose of this report is to keep you informed of our school's progress by sharing our academic achievements and providing information about the school program.

We are proud to report that Pinewood students made High Growth in math during the 2009-2010 school year. On the End-of-Grade tests, 71.9 percent of our learners were proficient in math. In addition, more than half of our students were proficient in reading, with 50.6 percent performing at or above grade level.

You will note that we did not make Adequate Yearly Progress (AYP), the standard set for schools by the No Child Left Behind Act. Pinewood has a diverse student population, which means we have many targets to meet for AYP—23 in all, and we met 20, or 87 percent, of them.

Our top priorities are to close the achievement gap and increase proficiency in literacy and math. To accomplish these goals, we have identified essential learning standards, targeted skills and set student benchmarks. During literacy instruction, teachers use leveled classroom libraries and conduct guided reading groups to emphasize comprehension strategies and develop proficient readers. Small-group instruction is rigorous and aligned with state standards and individual learning needs.

In math, we use the Investigations curriculum, which engages students in meaningful ways as they explore new math concepts. Our goal is to motivate students to be critical thinkers and to strategically solve real-world math problems. In addition, our classes in kindergarten through fifth grade include a unique problem-solving block, where students are taught to understand and appreciate the literary elements within word problems. They begin to see predictable ways of unraveling even the most challenging problems.

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

School Population

- Students: **554**
- Classroom Teachers: **32**
- Support Staff:
 - 1 Assistant Principal
 - 2 English as a Second Language Teachers
 - 1.5 Speech Pathologists
 - 4 Exceptional Children Teachers
 - 0.5 Social Workers
 - 2.3 Academic Facilitators
 - 0.4 Talent Development Teachers
 - 1 Counselor
 - 34 Other

Student Demographics

- African-American.....**35.2%**
- White.....**16.4%**
- Hispanic.....**41.2%**
- Asian.....**3.2%**
- Other.....**4%**
- Economically.....**88.1%**
disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$6,481**
- Teacher-to-pupil ratio **1:18**
- Student-mobility rate **28%**

▶ Pinewood Elementary School

(Principal's message continued)

The educational experience offered by Pinewood extends far beyond the acquisition of textbook knowledge. Students learn how to be creative thinkers, real-world problem solvers, scientists/environmentalists, mathematicians, scholarly writers, outstanding citizens and children with a global perspective. The learning environment at Pinewood allows for teaching at individual learning levels, the integration of technology such as SMART Boards (interactive white boards) and the application of learning through relevant instructional experiences. Character education is embedded in our instructional program, and students are held to high standards of learning and behavior.

As leaders of learning, our teachers are committed to professional growth. All of the staff is highly qualified. Eighteen percent of our teachers are National Board-certified and 41 percent hold master's degrees.

Pinewood takes the safety of our students and staff very seriously. This year we are focused on additional lock-down drills along with our monthly fire drills. Knowledge along with practice will enable Pinewood to increase our safety audit score to 100 percent.

We are grateful for the support of all stakeholders, including parents and community partners such as Altrusa, Sharon United Methodist Church and Leadership Charlotte. Through these partnerships, students receive valuable tutoring and lessons in life skills.

Our mission statement summarizes our beliefs: "Pinewood staff, working with our parents and community, will educate all students to high, challenging academic standards and prepare them to be socially responsible, contributing members of our community."

Thank you for your efforts in supporting this winning team.

Sincerely,
Trish Sexton
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

¹Not a CMS 2010 goal

²Based on responses to surveys; multiple survey items may have been used to create a composite

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID NOT** make AYP
(20 of 23 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **Priority School (DID NOT meet growth expectations)**

| Proficiency: | 2008-09 | 2009-10 |
|--------------|---------|---------|
| | 60.7% | 57.4% |

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

| State Standard | Our School: | 2008-09 | 2009-10 |
|----------------|-------------|---------|---------|
| 80 | | 80.6 | 79.9 |

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 79.4 **Our School 2009-10: 78.8**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

| State Standard | Our School: | 2008-09 | 2009-10 |
|----------------|-------------|---------|---------|
| 60% | | 50.9% | 52.1% |

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

| Our School's Results: | 2008-09 | 2009-10 |
|-----------------------|---------|---------|
| Safety | 87.2% | 90.4% |
| Encouragement | 98.3% | 100% |
| Engagement | 88.7% | 96.4% |

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 39.6**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
