

► Polo Ridge Elementary School

A Message from the Principal

To our Polo Ridge Elementary School families:

This is the annual School Progress Report for Polo Ridge Elementary, part of our initiative to keep families fully informed about our students' academic progress, our staff and our school environment.

Polo Ridge students demonstrated impressive success on the 2009-2010 End-of-Grade tests. Our overall composite proficiency rate was more than 95 percent, which indicates the high proportion of students who performed at or above grade level. We are extremely proud of our students' efforts in making High Growth for the second consecutive year. This is really an incredible accomplishment for a school that is only two years old. Just as in 2008-2009, we were designated an Honor School of Excellence last year. This is the highest ranking under the North Carolina ABC standards.

This year, we will ensure that all students continue learning at high levels. To achieve this, our teachers are working collaboratively to define the essential curriculum, discuss effective teaching strategies and appropriate assessments and analyze data to determine which students need remediation or enrichment. We have created a master instructional schedule to provide teachers with consistent grade-level and individual planning time. The schedule enhances our ability to provide small-group tutorial sessions as needed throughout the year.

Our staff will also take part in school-wide professional development. This year, we will focus on planning across grade levels and working cooperatively to improve academic performance throughout the school. Every teacher will be involved in the important decisions that affect Polo Ridge and our students.

A variety of teaching strategies will be used to address the diverse learning levels within each classroom. Flexible grouping will allow

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

School Population

- Students: **847**
- Classroom Teachers: **44**
- Support Staff:
 - 1 Assistant Principal
 - 0.5 English as a Second Language Teachers
 - 1 Speech Pathologist
 - 2 Exceptional Children Teachers
 - 2 Academic Facilitators
 - 1 Talent Development Teacher
 - 1 Counselor
 - 34 Other

Student Demographics

- African-American.....6%
- White.....72.8%
- Hispanic.....3.7%
- Asian.....13.6%
- Other.....3.9%
- Economically.....6.6% disadvantaged students

Additional Facts*

- Per-pupil expenditure \$4,253
- Teacher-to-pupil ratio 1:20
- Student-mobility rate 7%

► Polo Ridge Elementary School

(Principal's message continued)

teachers to provide instructional presentations designed to maximize the learning potential of each student. We will offer a challenging, rigorous curriculum to help all students reach their full learning potentials. All instruction, regardless of student ability, will focus on the development of critical-thinking and problem-solving skills. We fully expect to see high growth in academic achievement this year for all students.

Our staff comprises a unique blend of teaching professionals, ranging from newly licensed teachers to those with National Board certification. These individuals come from other CMS schools, various parts of North Carolina and cities and towns across the United States. Their combined perspectives create an exceptional array of teaching expertise.

Polo Ridge is fortunate to have strong parental involvement. Partnering with our parents enables

us to work together to provide the best possible educational experiences for our students. Our PTA shares our quest for excellence, and we view our parents as an integral part of our school family.

With outstanding staff, parents, students and community supporters, Polo Ridge will pursue the highest levels of instruction and student achievement.

Sincerely,
Patricia Riska
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(13 of 13 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **Honor School of Excellence (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	93.7%	95.5%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		85.1	84.9

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 83.8 **Our School 2009-10: 80.4**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		71.1%	71.6%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

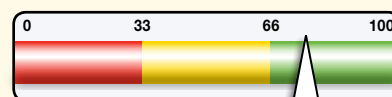

Our School's Results:	2008-09	2009-10
Safety	96.3%	95.9%
Encouragement	98.8%	100%
Engagement	97.6%	97.9%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 76**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
