

Ranson Middle School

A Message from the Principal

To our Ranson Middle School families:

This is the annual School Progress Report for Ranson Middle. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

I am pleased to report that our composite score on last year's state End-of-Grade tests was 58.9 percent. On the math test, 65 percent of our students demonstrated proficiency, while 51 percent of students were proficient on the reading test. In addition, 58 percent of our eighth-grade students met proficiency standards in science. We strive for even greater success for all of our students, and we are clearly a school with a strong capacity for growth.

As further evidence of our tremendous progress, Ranson met 25 of 29 targets for Adequate Yearly Progress (AYP). AYP is the standard set for schools by the No Child Left Behind Act. Ranson is a diverse middle school with many targets to meet for AYP, and we met 86 percent of them.

Ranson boasts a comprehensive International Baccalaureate curriculum. We provide rigorous instruction that is based on students' skills and learning needs. With our absolute commitment to collaborative team planning, teachers have found great value in sharing ideas and strategies to make learning engaging and purposeful for all students. We offer many additional learning opportunities by providing flexibility during the school day as well as after-school support through our Can Do Kids program.

We are proud of our experienced and highly dedicated staff. Last year, our faculty comprised 60 teachers, of whom 4 percent were National Board-certified and 26 percent held advanced degrees. Furthermore, 23 of our teachers have been in the profession for more

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

6 - 8

Ranson Middle School is a partial International Baccalaureate magnet.

School Population

- Students: **1,149**
- Classroom Teachers: **60**
- Support Staff:
 - 3 Assistant Principals
 - 1 English as a Second Language Teacher
 - 10 Exceptional Children Teachers
- 0.5 Social Workers
- 4 Academic Facilitators
- 3 Counselors
- 42 Other

Student Demographics

- African-American..... **75.1%**
- White.....**3.7%**
- Hispanic..... **13.4%**
- Asian.....**3%**
- Other.....**4.7%**
- Economically..... **81.7%** disadvantaged students

Additional Facts*

- Per-pupil expenditure**\$5,192**
- Teacher-to-pupil ratio **1:21**
- Student-mobility rate.....**25%**

**Click here for more information.*

► Ranson Middle School

(Principal's message continued)

than 10 years. Our staff is a close-knit family and brings stability and strength to our school.

You may be aware that Ranson is now a uniform school. Research indicates that when students wear uniforms, they tend to perform better academically. In order to recognize the accomplishments of our students, we have a number of programs such as Together Achieving Greatness, School Ambassadors, Courage to Succeed and Student Improvement Celebrations. Such programs will help students prepare to become effective citizens and leaders.

Our pledge to you is that there will be purposeful instruction in the classroom every day. To support that pledge, our staff routinely engages in research and use of best instructional practices. We embrace a common mantra at Ranson—Believe, Achieve, Succeed—and our staff members work very hard, both as individuals and as a team to ensure strong student achievement in a caring climate.

Character development is another important educational element at Ranson. We have adopted what we call a love-and-logic approach to teaching and monitoring acceptable behaviors and decision-making skills. Rather than employing punitive disciplinary standards, we encourage students to understand the reasons for school behavioral rules.

Thank you for allowing us to teach your wonderful children. We enjoy partnering with you to provide an outstanding education for all students.

Sincerely,
Nancy Brightwell
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

Ranson Middle School

PROGRESS REPORT

CMS 2010 Strategic Plan Goals	Key Performance Measures	CMS 2010 Goal	CMS Middle Schools 2009 - 2010	Our School 2008 - 2009	Our School 2009 - 2010
High Academic Achievement ▶ Because of federal privacy regulations, the actual values for these measures are not shown if the percentage is greater than 95 percent or less than 5 percent. Disparity between socioeconomic groups is shown as a positive percentage when non-economically disadvantaged students outscore economically disadvantaged students; a negative percentage indicates the reverse. <i>Data effective as of 8/27/10</i>	▶ Students performing at or above grade level overall ¹	—	75.5%	52.1%	58.9%
	▶ Students performing at or above grade level in reading	95%	69.9%	48.6%	50.7%
	▶ Students performing at or above grade level in math	88%	81%	64.1%	64.9%
	▶ Students performing at or above grade level in Algebra 1 ¹	—	>95%	—	>95%
	▶ Students performing at or above grade level in science	80%	70.3%	32.4%	58.1%
	Disparity between racial/ethnic groups in reading	10%	33.8%	36.4%	18.1%
	Disparity between racial/ethnic groups in math	10%	24.2%	26.5%	24.9%
	Disparity between racial/ethnic groups in science	10%	37.8%	39.4%	43%
	Disparity between socioeconomic groups in reading	10%	31%	12.4%	18.3%

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID NOT** make AYP
(25 of 29 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **Priority School**
(**DID meet growth expectations**)

Proficiency:	2008-09	2009-10
	52.1%	58.9%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		81.9	81.6

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 78.4 **Our School 2009-10: 81.4**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		58.4%	57.3%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	82.5%	81.4%
Encouragement	99.1%	97.6%
Engagement	95.9%	94.3%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Middle School Index: 59.4 **Our School Index: 55.8**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
