## A Message from the Principal

To our Reedy Creek Elementary School families:

In our efforts to keep you fully informed about our students' academic progress, our staff and our school environment, I would like to share with you this annual School Progress Report for Reedy Creek Elementary.

On the 2009-2010 End-of-Grade math test, our composite proficiency rate was 69.1 percent. This is an increase of 2.4 points over the previous year. In reading, our composite proficiency rate was 59 percent. We made Expected Growth in three of four subjects, while in fifth-grade reading, we made High Growth. This is a marked improvement on the 2008-2009 school year when we met only two of the six subjects.

We did not make Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. We met 26 of our 29 targets (89.66 percent). This is an increase from last year.

Although we have seen academic progress, we are always seeking ways to bring about further improvement. We continually ask ourselves three critical questions: What do we want students to know? How will we know that they learned it? How will we respond if they do not learn it? In response to these questions, we are thoroughly analyzing data to make decisions on staff development, examining individual students' performance and planning our instruction accordingly. Staff members at Reedy Creek are very focused in responding to the academic needs of our students.

Our reading instruction focuses on phonics, phonemic awareness, fluency, vocabulary and comprehension. We continue to use the intensive reading program in grades K-3. Students will stay in this intensive curriculum until they perform consistently at the appropriate academic level. In fourth and fifth grades, we are

*(Principal's message continued on next page)*

## 2009-2010 KEY FACTS

Data effective as of spring 2010

### Grades

K - 5

### School Population

- Students: **780**
- Classroom Teachers: **44**
- Support Staff:
  - 2 Assistant Principals
  - 2 English as a Second Language Teachers
  - 1 Speech Pathologist
  - 3 Exceptional Children Teachers
  - 1 Academic Facilitator
- 0.6 Talent Development Teachers
  - 1 Counselor
  - 41 Other

### Student Demographics

- African-American..... **54.6%**
- White..... **15.9%**
- Hispanic..... **19.9%**
- Asian..... **2.6%**
- Other..... **7.1%**
- Economically..... **64.9%** disadvantaged students

### Additional Facts\*

- Per-pupil expenditure ..... **\$5,217**
- Teacher-to-pupil ratio ..... **1:18**
- Student-mobility rate ..... **19%**

*\*Click here for more information.*

# ► Reedy Creek Elementary School

*(Principal's message continued)*

focusing on teaching to students' varying learning levels and using flexible grouping, research-based assessments and quality teaching practices to increase student achievement.

To address math achievement, we are using the Math Investigations program across all grade levels. This program gives students hands-on experiences that will enable them to better understand abstract math concepts in later years.

Reedy Creek Elementary has an established and experienced staff with very low turnover. The staff includes 49 certified teachers and 11 instructional assistants. Our teachers have an average of 10.8 years' teaching experience. The faculty is highly qualified with almost a quarter of the staff holding National Board certification and 30 percent with master's degrees.

We did not meet our safe school audit due to a volunteer who did not know the appropriate school lockdown protocol. In order to address this, we have

created school crisis procedure reference badges for all volunteers and substitute teachers who work in our school.

As the principal of Reedy Creek, it is my number-one priority to improve the academic success of our students. Through the collaborative work of a strong and motivated team of teachers and parents, I am confident that we will see significant growth this year at Reedy Creek. Our staff is dedicated, our students are focused and hard working and our parents and community are supportive. This combination will ensure that our students demonstrate continued improvement and success.

Sincerely,  
Mary Webb  
*Principal*

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

## CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

### ▶ Adequate Yearly Progress (AYP)

Our school **DID NOT** make AYP  
(26 of 29 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

### ▶ ABC Designation

Our school's designation: **School of Progress (DID meet growth expectations)**

Proficiency:	2008-09	2009-10
	61.5%	60.6%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

### ▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		79.2	80.6

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

### ▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 78.5      **Our School 2009-10: 80.6**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

### ▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		48.2%	54.7%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

### ▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	93.5%	88.1%
Encouragement	99%	95.3%
Engagement	93%	92.4%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

### ▶ Return-on-Investment Index

CMS Elementary School Index: 50.9      **Our School Index: 54.6**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
