

Selwyn Elementary School

A Message from the Principal

To our Selwyn Elementary School families:

This is the annual School Progress Report for Selwyn Elementary. We want you to be fully informed about our students' academic progress, our staff and our school environment.

While Selwyn remains a highly popular elementary school, last year's school rezoning meant that 60 of our children moved to Dilworth Elementary at the end of the 2009-2010 school year. Nonetheless, last year was a very successful one for Selwyn as our students continued to grow and achieve. Our goal of academic success for all students is encapsulated in our mission statement: "All students are motivated, challenged and prepared for the next level of academic development."

On last year's state End-of-Grade math test, 94 percent of our students scored at or above grade level, and we earned High Growth status in that subject. Our reading proficiency was 89.4 percent, but we missed out on making High Growth. Our school's composite proficiency rate across all tested areas, however, was sufficient to earn us High Growth status overall, which means that we exceeded one year's worth of growth. With more than 90 percent of our students demonstrating proficiency, we were delighted to be rated an Honor School of Excellence, the top designation under the North Carolina ABCs. We are proud of this designation and will continue to raise the bar for all students.

I am also pleased to report that, once again, we made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. We met all 13 of our goals.

This school year, we are using Math Investigations for the second year. This is a program designed to enhance students' problem-solving skills and comprehension of math concepts. We also offer

(Principal's message continued on next page)

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

School Population

- Students: 730
- Classroom Teachers: 39
- Support Staff:
 - 1 Assistant Principal
 - 0.5 English as a Second Language Teachers
 - 2 Speech Pathologists
 - 4.5 Exceptional Children Teachers
 - 2 Academic Facilitators
 - 1.4 Talent Development Teachers
 - 1 Counselor
 - 37 Other

Student Demographics

- African-American..... 10.7%
- White..... 78.8%
- Hispanic..... 5.1%
- Asian..... 1.6%
- Other..... 3.8%
- Economically..... 15.6% disadvantaged students

Additional Facts*

- Per-pupil expenditure \$5,051
- Teacher-to-pupil ratio 1:21
- Student-mobility rate 8%

► Selwyn Elementary School

(Principal's message continued)

a talent development program for high-performing students in grades two through five.

Much of Selwyn's success may be attributed to the support of a strong PTA. We have the PTA to thank for purchasing SMART Boards (interactive white boards) for all classrooms in grades two through five as well as extra computers for kindergarten and first-grade classrooms. We feel very strongly about the importance of using technology to promote student learning.

Moving forward, we will continue to monitor student data and use our findings to develop strategies aimed at increasing student growth across the board. At the same time, we will continue to work on narrowing the achievement gap between certain subgroups.

We have a dedicated team of 53 certified staff members and 13 instructional assistants. Among our faculty, we have three specially trained teachers and assistants who work with our autistic children.

At Selwyn, character education is a priority, and monthly assemblies highlight the character trait of the month. All students are encouraged to demonstrate good manners and become responsible, caring citizens.

Our focus on student learning remains unwavering. It will take all of us working together to ensure that all of our students realize their potential and are prepared for success in the 21st century. I am excited about the progress we are making at Selwyn and am dedicated to the continuing achievements of our school and our students.

Sincerely,
Linda Mintz
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

¹Not a CMS 2010 goal

²Based on responses to surveys; multiple survey items may have been used to create a composite

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(13 of 13 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **Honor School of Excellence (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	91.3%	90.9%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		83.5	83.1

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 80.7 **Our School 2009-10: 84**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		64.1%	65.9%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	95.1%	95.8%
Encouragement	98.9%	100%
Engagement	96.2%	99.2%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 59.3**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
