

▶ Shamrock Gardens Elementary School

A Message from the Principal

To our Shamrock Gardens Elementary School families:

This is the third School Progress Report for Shamrock Gardens Elementary. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment. We also will send you periodic communications throughout the school year to update you on our efforts to increase academic progress.

I am pleased to report that for the third consecutive year, Shamrock Gardens made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. We successfully met all 13 of our targets.

While tests are, of course, an important element of measuring the success of a school, we must not underestimate the contribution of a supportive network of stakeholders. I am very appreciative of the efforts of our staff, parents and community partners. For example, in the last year, our PTA received another Front Porch grant. This is awarded for projects that foster trust, understanding and relationship building across boundaries of race, ethnicity, age and geography. In addition to other work on our campus, the PTA established a butterfly garden to allow students to explore nature.

We have a number of initiatives planned for this school year to help make learning enjoyable and valuable to all students. These initiatives help to support our school mission of challenging and motivating each child to reach his or her highest potential by setting high expectations and using a variety of instructional strategies. In this respect, we have established a school theme for 2010-2011: Growing To Greatness.

(Principal's message continued on next page)

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

Shamrock Gardens Elementary School is a partial Learning Immersion and Talent Development magnet.

School Population

- Students: **369**
- Classroom Teachers: **25**
- Support Staff:
 - 1 Assistant Principal
 - 1 English as a Second Language Teacher
 - 0.5 Speech Pathologists
 - 1.5 Exceptional Children Teachers
 - 1 Academic Facilitator
 - 1 Talent Development Teacher
 - 1 Counselor
 - 31 Other

Student Demographics

- African-American.....**59.3%**
- White.....**6.2%**
- Hispanic.....**20.9%**
- Asian.....**5.1%**
- Other.....**8.4%**
- Economically.....**94.6%** disadvantaged students

Additional Facts*

- Per-pupil expenditure**\$8,098**
- Teacher-to-pupil ratio**1:16**
- Student-mobility rate**23%**

▶ Shamrock Gardens Elementary School

(Principal's message continued)

Continuing data analysis is a priority and we will use our findings to determine short- and long-term goals for our school and our students. Similarly, we will develop common grade level objective-based assessments for every class. Ongoing initiatives include the use of professional learning communities, cross-grade level planning and tutoring help for eligible students.

Shamrock Gardens has a supportive and orderly environment in which students and teachers treat each other with respect. I am pleased to report that we scored 100 percent on our safe-school audit for the third consecutive year.

I am confident that we will continue to see strong improvement in 2010-2011. I encourage every parent to visit with your child's teacher often and read teacher comments in your child's agenda

every day. You may request a conference with your child's teacher at any time.

We are looking forward to a very successful year at Shamrock Gardens. Please continue to work with us to make sure we support all students while they are Growing To Greatness.

Sincerely,
Duane Wilson
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

	Number of volunteer hours ⁴	Increase by 25% district-wide	235	418	464
	Number of business and community partnerships	Increase by 25% district-wide	580	24	18

¹Not a CMS 2010 goal

²Based on responses to surveys; multiple survey items may have been used to create a composite

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(13 of 13 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **School of Progress (DID meet growth expectations)**

Proficiency:	2008-09	2009-10
	65.5%	66.4%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		81.6	81.5

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 82.1 **Our School 2009-10: 81.3**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		56.8%	57.8%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	95.8%	91.3%
Encouragement	98.4%	100%
Engagement	98.6%	94.9%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 28.9**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)

For more information on our school's performance, visit <http://pmd.cms.k12.nc.us>
