

▶ Smith Academy of International Languages

A Message from the Principal

Dear Smith Academy families:

Every year, more families become aware of the importance of international education and multiple languages in our global economy. Smith Academy has teachers and staff from six continents and dozens of countries, providing instruction in six languages to more than 1,250 students in grades K-8. We now have 21 mobile classrooms to accommodate our rapidly growing enrollment. The Chinese-immersion program grows by one grade level every year, and there is high demand for German, French and Japanese immersion. The very real challenges of having a large and crowded school are a direct result of outstanding student learning outcomes and a 21st-century education.

School year 2009-2010 was another very successful year for our magnet school. At Smith Academy, our students' achievements continue to attract national and international attention. Our mission statement—Creating Bright Futures in Six Languages—embraces our goal of academic success and language proficiency for every student.

In 2009-2010, we were again designated a School of Distinction. We met or exceeded the growth goals for End-of-Grade testing, and we achieved High Growth in the End-of-Course Algebra 1 test, with more than 95 percent of our students demonstrating proficiency.

Smith Academy also made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. We met all 33 of our targets. Two years ago we had 29 targets—a measure of our school's growth in size and complexity. We are proud of maintaining real-world diversity during a time of great change in our school and our community.

We are proud to share a number of notable achievements and upcoming opportunities. First, Smith Academy was selected as a Confucius Classroom school, and received a very significant monetary award to support the Chinese immersion program. We are planning with our partner school in Jiangsu Province for a student exchange between Smith Academy and Yancheng Elementary School #1. We are already

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 8

Smith Academy of International Languages is a full World Language magnet.

School Population

- Students: **1,160** (Elementary 734, Middle 426)
- Classroom Teachers: **68**
- Support Staff:
 - 2 Assistant Principals
 - 3 English as a Second Language Teachers
 - 1 Speech Pathologist
 - 2 Exceptional Children Teachers
- 0.5 Social Workers
- 2 Academic Facilitators
- 1 Talent Development Teacher
- 3 Counselors
- 47 Other

Student Demographics

- African-American..... **25.7%**
- White..... **39.7%**
- Hispanic..... **19.5%**
- Asian..... **4.4%**
- Other..... **10.8%**
- Economically **34.7%** disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$5,125**
- Teacher-to-pupil ratio **1:17**
- Student-mobility rate **5%**

► Smith Academy of International Languages

(Principal's message continued)

a Partnerschule of the German Government, and we have flourishing student-exchange programs with Berlin and Ludwigsburg in Germany, Limoges in France and Hiroshima in Japan. In addition, we established a new program with Granada in Spain.

Smith Academy received the Dr. Donald Waldrip award as the top elementary magnet program in the USA from the Magnet Schools of America, and we were again nationally recognized as a 2010 Magnet School of Excellence.

The Japanese immersion program received a \$4,500 grant from the Japan Foundation to develop our unique Taiko Drum program. The Taiko students performed for the Consul General of Japan in May.

Our fine and performing arts programs—band, orchestra, jazz band, drama/theater, dance, handbells, art—continue to win awards and wow audiences. We are ensuring that our high-achieving multilingual students are richly educated in the arts as well.

It will take all of us working together to ensure that every one of our students is globally competitive and well-prepared for career and college. I count on each member of our school community to have high expectations for every child, and to challenge every child to read more, learn more, study harder and perform even better. I am confident that our students will be prepared for their global future with strong academic and problem-solving skills, advanced proficiency in a second language and the ability to thrive in a diverse and multicultural society.

Sincerely,
Ynez Olshausen
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

Smith Academy of International Languages

PROGRESS REPORT

CMS 2010 Strategic Plan Goals	Key Performance Measures	CMS 2010 Goal	CMS Schools 2009 - 2010	Our School 2008 - 2009	Our School 2009 - 2010
High Academic Achievement ▶ Because of federal privacy regulations, the actual values for these measures are not shown if the percentage is greater than 95 percent or less than 5 percent. Disparity between socioeconomic groups is shown as a positive percentage when non-economically disadvantaged students outscore economically disadvantaged students; a negative percentage indicates the reverse. <i>Data effective as of 8/27/10</i>	▶ Students performing at or above grade level overall ¹	—	75.3%	85.6%	89.2%
	▶ Students performing at or above grade level in reading	95%	69.9%	80.2%	83.5%

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(33 of 33 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **School of Distinction (DID meet growth expectations)**

Proficiency:	2008-09	2009-10
	85.6%	89.2%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		82.3	82.2

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 80.8 **Our School 2009-10: 82.2**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		59.7%	58.5%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	95.4%	86.4%
Encouragement	100%	94.2%
Engagement	98.9%	96.3%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Middle School Index: 59.4 **Our School Index: 57.3**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)

For more information on our school's performance, visit <http://pmd.cms.k12.nc.us>
