

▶ Southwest Middle School

A Message from the Principal

To our Southwest Middle School parents:

This is the third School Progress Report for Southwest Middle. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

While the academic performance of Southwest students is a source of great pride, we are determined to identify specific areas for improvement and introduce corrective strategies.

On the 2009-2010 End-of-Grade tests, Southwest made a composite score of 74 percent after retesting. This means that nearly three-quarters of our students were at or above grade level.

Our school's composite math score was 79.3 percent and the reading composite score was 68.3 percent, both results after retesting. As you may know, the state introduced a more rigorous reading test in 2007-2008, which resulted in a decline in reading scores across the state. Nonetheless, our students were successful in increasing their reading achievement in 2009-2010 over the previous year.

Southwest students did very well in the End-of-Course algebra test, achieving a composite score of more than 95 percent, bettering their score from the previous year. On the eighth-grade science test, our students' composite score was 71 percent, which also increased from 2008-2009.

Overall, Southwest made High Growth. We just missed making Adequate Yearly Progress (AYP), the standard set for schools by the No Child Left Behind Act. We met 36 of our 37 AYP targets, or 97 percent.

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

6 - 8

School Population

- Students: **1,287**
- Classroom Teachers: **64**
- Support Staff:
 - 3 Assistant Principals
 - 2 English as a Second Language Teachers
- 0.2** Speech Pathologists
- 7.5** Exceptional Children Teachers
- 0.5** Social Workers
- 2 Academic Facilitators
- 3 Counselors
- 30** Other

Student Demographics

- African-American.....**42.6%**
- White.....**27.1%**
- Hispanic.....**20.9%**
- Asian.....**4%**
- Other.....**5.4%**
- Economically.....**55.5%** disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$4,267**
- Teacher-to-pupil ratio **1:23**
- Student-mobility rate **17%**

► Southwest Middle School

(Principal's message continued)

Looking ahead, we are committed to enhancing our academic focus by adding student-accountability components to our professional learning communities over the next two years. Our first component will begin with student-led conferences in this school year. It is our hope that this and other strategies will help increase student achievement and overall academic growth.

We are fortunate to have a staff that is committed not only to their subject areas, but also to their students. Six percent of our teachers are National Board-certified and several more are waiting on their results. Their enthusiasm, creativity and compassion are exciting and encouraging. The experienced members of our staff are committed to collaborating on ways to incorporate best practices that support the development of teaching and learning.

At Southwest Middle, we believe that it takes the combination of parents, teachers and students working together to produce outstanding performance in the classroom. With parental support, student responsibility and teacher commitment, our students are sure to exceed the goals set at local, regional and national levels.

Thank you for all your support. I look forward to a successful academic year.

Sincerely,
Valerie G. Williams, Ed.D.
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

³ Incidents per 100 students

⁴ Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID NOT** make AYP
(36 of 37 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **School of Progress (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	70.9%	74%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		82.3	82.3

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 81.5 **Our School 2009-10: 82.3**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		60%	61.7%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	82%	88.1%
Encouragement	94.1%	96.4%
Engagement	90.1%	94.7%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Middle School Index: 59.4 **Our School Index: 72.8**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)

For more information on our school's performance, visit <http://pmd.cms.k12.nc.us>
