

▶ Stoney Creek Elementary School

A Message from the Principal

To our Stoney Creek Elementary School families:

This is the first School Progress Report for Stoney Creek Elementary. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

Stoney Creek Elementary School first opened the doors in August 2009. As we begin our second year, we have more than 750 students in grades kindergarten through five. Even though we have grown since last year, we remain committed to the individual needs of students and their families. Our school is described as positive and warm, parents report that communication is strong and our students like coming to school.

Our Parent Teacher Association is building a foundation for the future. Parents are very involved in the students' day-to-day activities. We look forward to having a vibrant and active PTA in the 2010-2011 school year. In addition, our School Leadership Team is very active and meets on a monthly basis to review school progress and offer suggestions for improvement.

Teachers at Stoney Creek have a wide range of experience. Our staff includes seasoned teachers as well as teachers in their first, second and third years. Staff turnover in our first year was very low. Teachers are actively involved in operational as well as instructional decisions.

Stoney Creek received 100 percent on our safe-school audit. Behavioral concerns and student-discipline issues were minimal, which allowed students to be in their classroom benefiting from instruction. This was evident in the progress of all of our students.

I am pleased to report that we made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. We also made High Growth and earned the School of Progress designation.

(Principal's message continued on next page)

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

School Population

- Students: **674**
- Classroom Teachers: **35**
- Support Staff:
 - 1 Assistant Principal
 - 2 English as a Second Language Teachers
 - 1 Speech Pathologist
 - 2.5 Exceptional Children Teachers
 - 2 Academic Facilitators
 - 0.6 Talent Development Teachers
 - 1 Counselor
 - 31 Other

Student Demographics

- African-American..... **55.5%**
- White..... **12.9%**
- Hispanic..... **17.7%**
- Asian..... **5.5%**
- Other..... **8.5%**
- Economically..... **63.8%** disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$4,574**
- Teacher-to-pupil ratio **1:20**
- Student-mobility rate **26%**

**Click here for more information.*

▶ Stoney Creek Elementary School

(Principal's message continued)

Our school mission assures students that they have a voice and play an active role in their own academic destiny. We have a strong community focus, both in the classroom and outside. Planning and communication among teachers are high priorities, and teachers are committed to their students and to each other. Teachers at Stoney Creek look for students' strengths and build on them. All students, regardless of race, ethnicity or language, are met where they are and helped to move forward. Students with disabilities participate with general-education peers and are held to the same standards of achievement and growth. Our talent development program positively impacts all students because instruction is connected to the work students are already doing in the classroom. Connections are an important part of the Stoney Creek philosophy.

At Stoney Creek, we encourage input from families. There is open dialogue between staff members and

support staff. This dialogue includes full and frank discussion about best practices, individualized student instruction and improving the delivery of instruction in the classroom. Teachers are continuously looking for ways to improve and for the most effective strategies to address student learning. Our goal is for students to leave Stoney Creek thoroughly prepared for middle school and well on their way to high school graduation.

Sincerely,
Gina Smith
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

	Number of volunteer hours ⁴	Increase by 25% district-wide	235	—	0
	Number of business and community partnerships	Increase by 25% district-wide	580	—	0

¹Not a CMS 2010 goal

²Based on responses to surveys; multiple survey items may have been used to create a composite

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(25 of 25 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **School of Progress (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	—	67.3%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		—	83.9

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: — **Our School 2009-10: 82.4**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		—	64.4%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

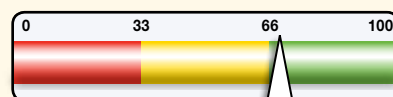

Our School's Results:	2008-09	2009-10
Safety	—	87.2%
Encouragement	—	98.7%
Engagement	—	96.7%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 68.3**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
