

Torrence Creek Elementary School

A Message from the Principal

To our Torrence Creek Elementary School families:

This is the third School Progress Report for Torrence Creek Elementary, part of our effort to keep families fully informed about our students' academic progress, our staff and our school environment.

Torrence Creek Elementary School students excelled on the End-of-Grade math test, with more than 95 percent of our students scoring at or above grade level across third, fourth and fifth grades. On the End-of-Grade reading test, 90.5 percent of our students scored proficient, and 91.3 percent of fifth-graders demonstrated proficiency on the End-of-Grade science test.

Our school made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act. Torrence Creek also made High Growth in academic achievement as a school compared to the previous school year, with 93.6 percent of our students performing at or above grade level overall.

The Torrence Creek staff will continue to work together to improve students' academic achievement by using data to assess progress and by teaching to the specific learning needs of each student. We will continue to use the Math Investigations program across all grade levels and Excel Math in first through fifth grades. To encourage reading progress, we will use the Renaissance Reading program and incorporate the study of novels. We will strengthen students' writing skills through the nationally renowned Lucy Calkins program and will increase our focus on student writing in all content areas. In science, teachers will use hands-on activities that help students grasp concepts and allow them to experience and apply their knowledge to meaningful scientific activities. All students in grades three, four and five will undertake individual science fair projects, while each class in kindergarten through second grade will complete a project to demonstrate scientific knowledge.

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

School Population

- Students: **1,189**
- Classroom Teachers: **60**
- Support Staff:
 - 2 Assistant Principals
 - 1 English as a Second Language Teacher
 - 2 Speech Pathologists
 - 3 Exceptional Children Teachers
 - 2 Academic Facilitators
- 1.6 Talent Development Teachers
 - 1 Counselor
 - 49 Other

Student Demographics

- African-American.....**6.8%**
- White.....**79.7%**
- Hispanic.....**4%**
- Asian.....**5.2%**
- Other.....**4.3%**
- Economically.....**13.4%**
disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$4,555**
- Teacher-to-pupil ratio **1:21**
- Student-mobility rate **9%**

Torrence Creek Elementary School

(Principal's message continued)

Our staff is highly qualified and experienced. Many of our staff members hold graduate degrees or are National Board-certified. We continue to have very low staff turnover due to our positive working environment and the support given to teachers by our administration, parents and students. Our staff will continue to work together across grade levels to improve teaching and learning and ensure consistency for students. Teachers adhere to the North Carolina Standard of Study while attending to individual student learning needs.

Torrence Creek also supports character development and students recite our school's character-development pledge each morning. We highlight monthly character traits and recognize students who exhibit good character. To further complement character development, Torrence Creek participates in Steps to Respect, a program that addresses the CMS anti-bullying initiative.

Torrence Creek is supported by an outstanding PTA which provides numerous resources for our school. Our school community will continue to work together as we seek to help students grow academically, socially and emotionally. The supportive, safe and orderly environment at Torrence Creek allows teachers to perform at a high level and encourages students to flourish. I am confident that we will continue to see high growth in student achievement as a result of our focus on student learning, high expectations and success for all students.

Sincerely,
Penni Beth Crisp
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

²Based on responses to surveys; multiple survey items may have been used to create a composite

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(21 of 21 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **Honor School of Excellence (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	92.3%	93.6%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		84.4	83.1

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 84.2 **Our School 2009-10: 82.4**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		67.4%	62.1%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

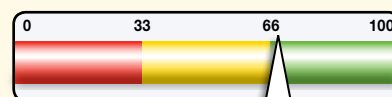

Our School's Results:	2008-09	2009-10
Safety	96%	94.9%
Encouragement	96.6%	98.5%
Engagement	96%	97.7%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 67.8**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
