

Tuckaseegee Elementary School

A Message from the Principal

To our Tuckaseegee Elementary School families:

This annual School Progress Report for Tuckaseegee Elementary is intended to keep our parents, staff and community fully informed about our scholars' academic progress, our staff achievements and our school environment.

Our school's increasing academic success gives credence to our belief in the concept of teaching our way to the top. On the 2009-2010 End-of-Grade math test, we recorded a composite score of 81.9 percent. Moreover, our scholars not only made Expected Growth, but also achieved High Growth status. This is noteworthy progress and means that our scholars made more growth than expected compared to other schools in the state.

Tuckaseegee has a diverse population of scholars, including a high number with limited English proficiency. I am delighted to report that all subgroups achieved Expected Growth status in math. The results show that our scholars made a year's worth of growth overall. We also made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act.

Data indicates that we are well on our way toward our goal of high academic achievement by all of our scholars. We are attending professional development seminars and researching and introducing effective literacy and math teaching strategies. We have made measurable growth in math, but similar growth in reading comprehension requires a plan of action—and we have one.

Our staff is working collaboratively, meeting twice-weekly in teams, to plan meaningful and engaging lessons. We are using assessment data before and after teaching to drive instruction. We are also using differentiated instruction through response to intervention, a flexible

(Principal's message continued on next page)

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

Tuckaseegee Elementary School is a partial Learning Immersion and Talent Development magnet.

School Population

- Students: **809**
- Classroom Teachers: **45**
- Support Staff:
 - 1 Assistant Principal
 - 2 English as a Second Language Teachers
 - 1 Speech Pathologist
 - 2 Exceptional Children Teachers
 - 0.5 Social Workers
 - 2 Academic Facilitators
 - 1 Talent Development Teacher
 - 1 Counselor
 - 42 Other

Student Demographics

- African-American..... **50.6%**
- White..... **12%**
- Hispanic..... **25.1%**
- Asian..... **8%**
- Other..... **4.3%**
- Economically..... **78.6%**
disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$4,875**
- Teacher-to-pupil ratio **1:18**
- Student-mobility rate **19%**

(Principal's message continued)

and strategic approach that adapts the curriculum and interventions to the varying needs of our scholars. This strategy includes intensive reading, multiple intelligences, strategic groups, enrichments and high-level thinking. Using our assessment data, we can determine who is learning, what they are learning and to what extent they are achieving specific goals.

Furthermore, our staff is using the Sheltered Instruction Observation Protocol to enrich our teaching. While this research-based program is designed for English Language Learners and Exceptional Children, it will benefit all of our scholars. In addition, we use a learning immersion program in kindergarten through second grade and a talent development program for grades three through five.

Our faculty is strong, with 100 percent of our teachers deemed highly qualified. Attracting and retaining effective educators are ongoing goals for Tuckaseegee as we seek to raise academic achievement for our

scholars. Our teachers are passionate in their pursuit of lifelong learning and post-graduate education.

We will all continue to work on raising achievement. Our staff offers after-school tutoring during the second semester to scholars who need additional assistance in mastering grade-level material.

I am confident that we will continue to see improvement in achievement this year at Tuckaseegee. Our staff is dedicated, our scholars are focused and hard working and our parents and community are supportive. This combination will ensure that scholars today will become leaders tomorrow.

Sincerely,
Dayna C. Sanders
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(25 of 25 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **School of Progress (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	70.6%	73.3%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		82.7	82.8

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 82.3 **Our School 2009-10: 83.4**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		62.3%	64%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	93.8%	91.5%
Encouragement	96.6%	100%
Engagement	97.7%	96.9%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 61.8**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)

For more information on our school's performance, visit <http://pmd.cms.k12.nc.us>
