

# West Mecklenburg High School

## A Message from the Principal

To our West Mecklenburg High School families:

This is the annual School Progress Report for West Mecklenburg High school. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

West Mecklenburg students made tremendous gains on the 2009-2010 End-of-Course tests and career and technical education test. I am pleased that we saw continued high growth in academic achievement and that our graduation rate increased.

We continue to employ the Advancement Via Individual Determination (AVID) program. AVID gives ambitious students the support and organizational skills they will need to prepare for college eligibility. The skills taught in AVID include note-taking, questioning strategies, writing, reading, inquiry and group collaboration.

I am delighted to report that West Mecklenburg received a \$6 million school improvement grant, which allows us to recruit additional instructional and support staff. The grant will also provide additional resources to let us focus on improving literacy and math.

We firmly believe in the use of data at West Mecklenburg. Our administrators, teachers and staff collect data on our students' testing performance. We analyze this data to evaluate the strengths and weaknesses in our curriculum and lesson design and take remedial action as necessary.

As a staff, we are dedicated to providing our students effective instruction and constant support in and out of the classroom.

*(Principal's message continued on next page)*

## 2009-2010 KEY FACTS

Data effective as of spring 2010

### Grades

9 - 12

West Mecklenburg High School is a partial World Languages magnet.

### School Population

- Students: **2,043**
- Classroom Teachers: **120**
- Support Staff:
  - 4 Assistant Principals
  - 3 English as a Second Language Teachers
- 0.4** Speech Pathologists
- 17** Exceptional Children Teachers
- 0.5** Social Workers
  - 2 Academic Facilitators
  - 6 Counselors
- 52** Other

### Student Demographics

- African-American..... **67.6%**
- White..... **11.1%**
- Hispanic..... **11.1%**
- Asian..... **7.1%**
- Other..... **3.1%**
- Economically..... **75.6%** disadvantaged students

### Additional Facts\*

- Per-pupil expenditure ..... **\$4,964**
- Teacher-to-pupil ratio ..... **1:16**
- Student-mobility rate ..... **29%**

# ▶ West Mecklenburg High School

*(Principal's message continued)*

We have a vibrant combination of teachers and administrators—some are new to West Mecklenburg, while others have been here for several years. Working collaboratively, they are committed to preparing our students for life after high school.

Our focus at West Mecklenburg is to provide our students with a safe and orderly environment that fosters learning and academic achievement. We require our students to respect the diversity of others and take responsibility for their behavior and decision-making with support from the entire school. Our staff encourages students to take competitive, stimulating courses and participate in activities that will prepare them for the challenges ahead.

At West Mecklenburg, we continue to move in the right direction. Our students have competed and done an outstanding job in several state and national competitions. Additionally, our foreign language

academy is challenging and gives students a taste of the level of academic rigor they will encounter in college.

We always encourage and appreciate the support of our community, which has a longstanding tradition of pride in West Mecklenburg High.

Backed by an outstanding staff and community, our students will continue to excel academically and socially. Our motto is “Nothing Less Than Success,” and this guides us each and every day.

Sincerely,  
Denise M. Atkinson

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

<sup>3</sup> Based on responses to surveys;

<sup>4</sup> Incidents per 100 students

<sup>2</sup> Required for graduation

multiple survey items may have been used to create a composite

<sup>5</sup> Per 100 students

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ► Adequate Yearly Progress (AYP)

Our school **DID NOT** make AYP (*14 of 30 goals met*)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ► ABC Designation

Our school's designation: **School of Progress (DID meet high growth expectations)**

**Proficiency** 2008-09: 71.3% **2009-10: 72.2%**

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (below); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ► Average Growth

| State Standard | Our School: | 2008-09 | 2009-10     |
|----------------|-------------|---------|-------------|
| 80             |             | 85.7    | <b>83.7</b> |

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Course assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

## ► Students Making or Exceeding a Year's Worth of Growth

| State Standard | Our School: | 2008-09 | 2009-10      |
|----------------|-------------|---------|--------------|
| 60%            |             | 66.3%   | <b>62.3%</b> |

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ► Adjusted Pass Rate on Advanced Placement (AP) Tests

| Expectation | Our School: | 2008-09 | 2009-10      |
|-------------|-------------|---------|--------------|
| 100%        |             | 39.5%   | <b>57.1%</b> |

AP tests are administered by the College Board and give students the opportunity to earn college credit. Some high school students are predicted to pass AP tests, based on their performance on the Preliminary SAT (PSAT). This measurement reflects the cumulative AP test success rate among those seniors predicted to pass. It is important to note that all students are encouraged to take AP tests, but in order not to penalize schools for having high expectations for all students, not all scores are included in this measurement.

## ► Participation Rate in Weighted Courses

| Expectation | Our School: | 2008-09 | 2009-10      |
|-------------|-------------|---------|--------------|
| 100%        |             | 87.4%   | <b>79.6%</b> |

Students with the skills to be successful are defined as those on grade level when entering high school. We offer weighted courses to those students as a means of challenging them academically and encouraging in-depth study within a single subject. The proportion of students who started high school on grade level, and who take three or more weighted courses by the end of senior year, measures how much a school encourages students to push themselves.

## ► Participation Rate in Advanced Placement (AP) or International Baccalaureate (IB) Courses

| Expectation | Our School: | 2008-09 | 2009-10   |
|-------------|-------------|---------|-----------|
| 100%        |             | >95%    | <b>NA</b> |

AP and IB courses are the most challenging programs available in high school. The International Baccalaureate is a global educational program recognized for its rigor. Some high school students are predicted to be successful in AP courses, based on their performance on the Preliminary SAT (PSAT). This measures how many of these identified seniors have actually enrolled in AP and IB courses.

## ► Graduation Rate for Students Who Enter Ninth Grade

|                    | 2008-09      | 2009-10      |
|--------------------|--------------|--------------|
| State Comparison:  | 71.8%        | 74.2%        |
| <b>Our School:</b> | <b>55.9%</b> | <b>58.2%</b> |

Students completing kindergarten through 12th grade is a goal for everyone involved in education. We compare the number of students who start ninth grade with those who earn a diploma within four years, taking into account that some students transfer in from other schools and some transfer out of our school.

## ► SAT Rates and Results

| Percentage of seniors taking the SAT: | 2008-09      | 2009-10    |
|---------------------------------------|--------------|------------|
| Nation                                | 46%          | 47%        |
| State                                 | 63%          | 63%        |
| <b>Our School</b>                     | <b>45.1%</b> | <b>46%</b> |

| Average SAT score: | 2008-09     | 2009-10     |
|--------------------|-------------|-------------|
| Nation             | 1509        | 1509        |
| State              | 1486        | 1485        |
| <b>Our School</b>  | <b>1239</b> | <b>1261</b> |

The SAT is a nationally used assessment of high-level math, reading and writing skills. It is used to assess college readiness and the results are calculated by the state. (Data provided by the North Carolina Department of Public Instruction.)

## ► Positive Responses to Student Survey Items

| Our School's Results: | 2008-09 | 2009-10      |
|-----------------------|---------|--------------|
| Safety                | 83.3%   | <b>82.2%</b> |
| Encouragement         | 95.7%   | <b>96%</b>   |
| Engagement            | 93.6%   | <b>93.8%</b> |

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

## ► Return-on-Investment Index

CMS High School Index: 56.7  
**Our School Index: 60.5**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools.
