A Message from the Principal

To our Whitewater Academy Elementary School families:

This is the 2009-2010 School Progress Report for Whitewater Academy Elementary. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment. As your principal, I believe strongly that a well-informed parent leads to increased involvement in a child's learning and our school.

Whitewater is beginning its third year in a pristine setting, just a stone's throw from the U.S. National Whitewater Center and the newly developing Whitewater residential community. Our building is in wonderful condition, representing the pride that staff, students and families have in their school.

Our staff and students are so proud of our school's accomplishments during the 2009-2010 school year. You will see from this report that Whitewater made overall High Growth on the state End-of-Grade tests. Our composite proficiency rate for reading, math and science was 67 percent. This represents a 6.3 percent increase from the previous school year.

Breaking down that composite score, 65.2 percent of our students were at or above grade level in reading, 71.3 percent in math and 59.3 percent in fifth-grade science. In addition, Whitewater made Adequate Yearly Progress (AYP), the standard set for schools by the No Child Left Behind Act. We have a diverse school population, which means we have a high number of targets to reach for AYP, so this is a tremendous accomplishment.

Whitewater has been designated a Title I school, a reflection of our high percentage of students deemed economically disadvantaged.

(Principal's message continued on next page)

2009-2010 KEY FACTS

Data effective as of spring 2010

Grades

K - 5

School Population

- Students: **448**
- Classroom Teachers: **27**
- Support Staff:
 - 1 Assistant Principal
 - 1 English as a Second Language Teacher
 - 1 Speech Pathologist
 - 2 Exceptional Children Teachers
 - 1 Academic Facilitator
- **0.4** Talent Development Teachers
 - 1 Counselor
 - 27 Other

Student Demographics

- African-American..... **51.8%**
- White..... **19.2%**
- Hispanic..... **15.4%**
- Asian..... **6%**
- Other..... **7.6%**
- Economically..... **80.8%** disadvantaged students

Additional Facts*

- Per-pupil expenditure **\$5,374**
- Teacher-to-pupil ratio **1:18**
- Student-mobility rate **18%**

▶ Whitewater Academy

(Principal's message continued)

We have already identified those students who need additional support, and we have put in place a comprehensive and aggressive remediation plan. We feel confident that this year will be one of continued improvement and will see us once again making AYP and High Growth status.

The staff works collaboratively and meets weekly to plan lessons, discuss student performance and reflect on successes and areas for improvement. Staff will be trained this year in reading instruction and introducing research-based, engaging, best practices for students.

Everyone at Whitewater Academy is committed to providing all of our students with exceptional learning opportunities and helping them not just meet, but exceed their potential. To accomplish this, we are using a variety of strategies, including in-depth data analysis to drive our instruction. Our school goals

include developing a full character-education plan, using early-intervention strategies, increasing parental involvement, maintaining a positive school culture and ensuring that all students exceed a year's worth of growth in one school year.

At Whitewater Academy, we are committed to character development as well as academic achievement. Failure is not an option. We are thrilled to partner with you and your child to ensure that success is indeed the only option.

Sincerely,
Beth Thompson
Principal

What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

The logo for Charlotte-Mecklenburg Schools (CMS) features a stylized leaf icon above the lowercase letters "cms" in a bold, red font. Below the letters, the full name "Charlotte-Mecklenburg Schools" is written in a smaller, black font.

REACH FURTHER. **Global competitiveness starts here.**

	Number of business and community partnerships	Increase by 25% district-wide	580	0	0

¹Not a CMS 2010 goal

²Based on responses to surveys; multiple survey items may have been used to create a composite

³Incidents per 100 students

⁴Per 100 students

CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP
(17 of 17 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit www.dpi.state.nc.us/nclb/abcayp/overview/ayp

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

▶ ABC Designation

Our school's designation: **School of Progress (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	60.7%	67%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		81.3	83.6

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 80.3 **Our School 2009-10: 84**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		58.2%	63.1%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	95.5%	90.5%
Encouragement	98.4%	97.2%
Engagement	98.4%	96%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

▶ Return-on-Investment Index

CMS Elementary School Index: 50.9 **Our School Index: 55**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)

For more information on our school's performance, visit <http://pmd.cms.k12.nc.us>
