

# ▶ Winding Springs Elementary School

## A Message from the Principal

Dear Winding Springs Elementary School families:

This is the annual School Progress Report for Winding Springs Elementary. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our quality school environment.

Winding Springs is a full magnet school with a theme of Leadership and Global Economics. The global theme is visually represented throughout the school by posted student work, a canopy of international flags over the main foyer and a spectacular international garden in our courtyard where students work on global-study projects.

Teachers integrate a global and leadership theme into all subjects, and student global-study projects are formally displayed twice a year during the International Project Fairs. This year, students in kindergarten through grade five will receive Arabic language instruction.

Our students wear uniforms with dark green polo shirts and khaki pants or skirts. They are congratulated regularly for their respectful behavior in the school and on field trips. Members of our fourth- and fifth-grade Leadership Club help our pre-kindergarten students to comport themselves and read like young leaders. I am very proud of the excellent behavior exhibited by the Winding Springs students.

In the 2009-2010 school year, Winding Springs achieved Expected Growth status as measured by the End-of-Grade tests for grades three through five. In addition, we made Adequate Yearly Progress, the standard set for schools by the No Child Left Behind Act.

While our students exhibited growth in reading and math, we still have challenges ahead in improving our students' achievement in reading. Our primary goal for the upcoming year is to ensure that all students achieve high levels of growth in all areas of reading,

*(Principal's message continued on next page)*

## 2009-2010 KEY FACTS

Data effective as of spring 2010

### Grades

Pre-K - 5

Winding Springs Elementary School is a full Center for Leadership and Global Economics magnet.

### School Population

- Students: **568**
- Classroom Teachers: **39**
- Support Staff:
  - 1 Assistant Principal
  - 2.5 English as a Second Language Teachers
  - 2 Speech Pathologists
  - 5 Exceptional Children Teachers
  - 0.5 Social Workers
  - 0.6 Talent Development Teachers
  - 1 Counselor
  - 40 Other

### Student Demographics

- African-American..... **57.9%**
- White..... **5.1%**
- Hispanic..... **24.1%**
- Asian..... **3.5%**
- Other..... **9.3%**
- Economically ..... **67.3%** disadvantaged students

### Additional Facts\*

- Per-pupil expenditure ..... **\$5,795**
- Teacher-to-pupil ratio ..... **1:20**
- Student-mobility rate ..... **5%**

*\*Click here for more information.*

# ► Winding Springs Elementary School

*(Principal's message continued)*

especially comprehension skills. We will continue to use Response to Instruction, where teachers identify and monitor the best ways to ensure high levels of student learning. In addition, we are developing grade-level teams of teachers. These teams will work together on a daily basis to discuss individual student needs, study ongoing assessments and devise ways to help students become excellent readers, writers and speakers. Our focus is on developing students who are responsible, effective communicators equipped with a strong work ethic. We are very excited about the new challenges for growth that will be presented to us this year.

We will continue our mission to prepare students to be competitive in an ever-changing global society. We have enthusiastic and highly qualified teachers. We have two computer labs, a number of SMART Boards (interactive white boards) and a full-time technology instructor. Development of critical-

thinking skills and access to technology are essential to our goal of growing young leaders who can access information and think independently so they may thrive in a globally competitive society.

Winding Springs is a safe place for your child to grow. We teach students to respect and take care of themselves and each other. I welcome you to come in and take part in our school family. Together we will continue to provide a quality learning experience for all.

Sincerely,  
Myrna Meehan

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

	Number of volunteer hours <sup>4</sup>	Increase by 25% district-wide	235	759	<b>57</b>
	Number of business and community partnerships	Increase by 25% district-wide	580	1	<b>1</b>

<sup>1</sup>Not a CMS 2010 goal

<sup>2</sup>Based on responses to surveys; multiple survey items may have been used to create a composite

<sup>3</sup>Incidents per 100 students

<sup>4</sup>Per 100 students

## CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

### ▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(21 of 21 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

### ▶ ABC Designation

Our school's designation: **School of Progress**  
(**DID** meet growth expectations)

Proficiency:	2008-09	2009-10
	63.1%	65.1%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

### ▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		80.9	80.4

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

### ▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 76.8      **Our School 2009-10: 79.7**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

### ▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		53.8%	51.5%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

### ▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	90.8%	88.7%
Encouragement	100%	97%
Engagement	96.4%	96.7%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

### ▶ Return-on-Investment Index

CMS Elementary School Index: 50.9      **Our School Index: 47**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)

For more information on our school's performance, visit <http://pmd.cms.k12.nc.us>
