

# ▶ Winterfield Elementary School

## A Message from the Principal

To our Winterfield Elementary School families:

This is the third School Progress Report for Winterfield Elementary. We are sending this to you so that you may be fully informed about our students' academic progress, our staff and our school environment.

Winterfield had a proficiency rate of 76.1 percent on the End-of-Grade math tests and a rate of 50.9 percent on the End-of-Grade reading tests. Additionally, fifth-grade students took the End-of-Grade science test and 66.3 percent of them scored proficient.

We are very happy to report that our school did make Adequate Yearly Progress (AYP), the standard set for schools by the No Child Left Behind Act. We met all 21 of our targets. This was the second consecutive year we made AYP, and the progress we have made reflects the shared efforts of our teachers, students and parents as we continue to work together.

So what are we doing to build on these academic achievements? Our staff is working collaboratively, meeting in teams to analyze data, examine student work and plan meaningful and engaging lessons. In addition, we are using differentiated instruction, a flexible teaching approach that adapts the curriculum to individual learning needs.

Our faculty is strong and highly qualified. In school year 2009-2010, our staff included 42 certified teachers and nine teacher assistants. We have very low staff turnover because of our supportive and caring school climate. We consider our school a family that cares deeply for its children. Staff teamwork yields positive results as we focus on student learning and high academic achievement.

We continue to provide enrichment activities for our students, including a talent development program for grades two through five. To help support students' social and emotional growth, we offer a variety of

*(Principal's message continued on next page)*

## 2009-2010 KEY FACTS

Data effective as of spring 2010

### Grades

K - 5

### School Population

- Students: **520**
- Classroom Teachers: **36**
- Support Staff:
  - 1 Assistant Principal
  - 4 English as a Second Language Teachers
  - 1 Speech Pathologist
  - 2 Exceptional Children Teachers
  - 1.3 Academic Facilitators
  - 0.6 Talent Development Teachers
  - 1 Counselor
  - 32 Other

### Student Demographics

- African-American.....**44.2%**
- White.....**3.3%**
- Hispanic.....**46%**
- Asian.....**2.3%**
- Other.....**4.2%**
- Economically.....**94.2%** disadvantaged students

### Additional Facts\*

- Per-pupil expenditure ..... **\$6,133**
- Teacher-to-pupil ratio ..... **1:15**
- Student-mobility rate ..... **36%**

*\*Click here for more information.*

*(Principal's message continued)*

extracurricular activities including chess club and Math and Science Olympiads. Additionally, students with some musical talent may take violin lessons.

Character development is a priority at Winterfield and we recognize our students who exhibit positive behavior, achieve academic excellence and have perfect attendance.

Our staff is dedicated and committed to providing a quality education for our children. Our students are focused and hard working. Our parents and community are supportive. This combination will ensure continued success and improvement for our students and the school.

Sincerely,  
Regina J. Boyd  
*Principal*

## Even parents can learn a thing or two.

The most successful students have parents, grandparents or caretakers who are actively involved in their education. These students earn better grades, achieve higher test scores and have better attendance records.

How can you be an active participant in your child's education? Our community has banded together to help answer your questions on parenting awareness, helping your child learn, health and wellness and personal growth and development.

Learn more at [www.cms.k12.nc.us](http://www.cms.k12.nc.us).

## What is the School Progress Report?

In 2006, we introduced the *Charlotte-Mecklenburg Schools Strategic Plan 2010* outlining our vision and strategy to educate our students to compete locally, nationally and internationally.

The plan outlines seven areas of concentration: high academic achievement; effective educators; adequate resources and facilities; safe and orderly schools; freedom and flexibility with accountability; world-class service, and strong parent and community connections. This report summarizes how our school performed in the 2009-10 school year in making progress on these seven goals. On the final page, you will also find an explanation of federal and state accountability measures.

Educators and parents have a common goal of preparing our children to compete in an ever-growing global community. Working together requires frequent dialogue between school and parents, so please feel free to contact the principal or any staff member at our school.

REACH FURTHER.

# CMS Accountability Measures

The learning of students in public education is measured in multiple ways. There are assessments given at regular intervals by CMS—tests that we use to measure how students are learning as the school year progresses. Other tests are required by the state and given once or twice a year, such as End-of-Course and End-of-Grade tests. Some of the state test results are also used to calculate district progress on the federal standard of Adequate Yearly Progress for each student. This page provides brief explanations of some of the measures and tests used in CMS.

## ▶ Adequate Yearly Progress (AYP)

Our school **DID** make AYP  
(21 of 21 goals met)

The federal No Child Left Behind Act requires that every school make Adequate Yearly Progress (AYP). AYP is an all-or-nothing standard: Every target must be met.

State test results are used to set AYP targets. There are separate targets for the school as a whole and for nine subgroups of students: white, black, Hispanic, Native American, Asian, multiracial, economically disadvantaged students, students with limited English proficiency and students with disabilities. Subgroups of students are measured separately so that an overall score for a class or a school does not mask poor results within a subgroup.

Some schools are more diverse than others, so the number of subgroups varies by school. Therefore, the number of AYP targets varies by school, too. Some schools may have only a few targets to meet; others may have the maximum, which is 41. School attendance and graduation rates are also measured for AYP.

For a more complete overview of AYP, visit [www.dpi.state.nc.us/nclb/abcayp/overview/ayp](http://www.dpi.state.nc.us/nclb/abcayp/overview/ayp)

For details of AYP results for our school and its student groups, visit <http://ayp.ncpublicschools.org>

## ▶ ABC Designation

Our school's designation: **School of Progress (DID meet high growth expectations)**

Proficiency:	2008-09	2009-10
	56.6%	63.9%

The North Carolina ABCs program was introduced more than a decade ago to help schools improve. It uses two basic measures to assess a school's performance: the Average Growth of students (at right); and the Performance Composite, which measures how well students performed against a state-set standard of academic achievement.

Schools are given one of seven designations. In descending order, they are: Honor School of Excellence, School of Excellence, School of Distinction, School of Progress, No Recognition, Priority School, and Low Performing.

For more information about ABCs, visit <http://abcs.ncpublicschools.org/abcs>

## ▶ Average Growth

State Standard	Our School:	2008-09	2009-10
80		82.4	84.7

Did our students meet the state's expectation for academic growth? Each student is expected to perform as well (or better) on the End-of-Grade assessment as he or she did, on average, during the previous two years. Average Growth for a school is calculated by comparing actual performance to expected performance and then averaging the difference across all students and all subjects. The score above reflects the combined growth rate of all of our students. To make expected growth, a school must have a score of 80 or higher.

## ▶ Amount of Growth for Students in the Lowest-Achieving Group

Our School 2008-09: 81.1      **Our School 2009-10: 75.6**

Are we helping our low achievers catch up? Historically, some economically disadvantaged and minority students have trailed their classmates in academic achievement. This is called the achievement gap, and closing it is one of the biggest challenges in public education. If the lower-achieving students at a school show academic growth at a faster rate than higher-achieving students, the achievement gap is narrowed. When the score for this measure is higher than the Average Growth for the school, the school is closing the achievement gap.

## ▶ Students Making or Exceeding a Year's Worth of Growth

State Standard	Our School:	2008-09	2009-10
60%		58.5%	67.7%

Did our students learn as much as they were expected to learn this year? As described above, the state sets expectations for each student based on individual performance for the previous two years. Across the state, about half of students typically meet or exceed this growth expectation. To earn the high-growth designation, a school must meet the average-growth standard described above and also have more than 60% of its students make expected growth.

## ▶ Positive Responses to Student Survey Items

Our School's Results:	2008-09	2009-10
Safety	93%	90.4%
Encouragement	100%	97.7%
Engagement	98.6%	94.7%

Is our school environment conducive to learning? This measure is subjective—it is taken from a student survey.

[Click to view student survey results.](#)

## ▶ Return-on-Investment Index

CMS Elementary School Index: 50.9      **Our School Index: 46.7**

Return on Investment is calculated by comparing students' academic growth to the per-pupil expenditure. This measure is intended to help parents and community members understand how money is spent in our schools. [Click here for more information.](#)
