### What happens if someone tests positive for COVID-19?

Any positive test is reported to the health department in the county where the patient lives. When someone tests positive, the health department will contact the person to ensure they are aware of their diagnosis, review home isolation requirements and assess their social service needs. Contact tracing will be conducted to identify anyone who was in close contact to the patient for up to 48 hours before they showed symptoms. Close contact includes household members and anyone who was within 6 feet of the patient for more than 15 minutes during the time period they were infectious. The health department will contact anyone who was potentially exposed. For school-related exposures, the health department works directly with CMS to identify close contacts and notify anyone who may have been exposed.

### How will our workplace be maintained to prevent the spread of COVID-19?

- If an individual was in a CMS facility within two days of symptoms developing, a specialized disinfecting cleaning process will be performed, focusing on areas of the building in which the individual spent significant time.
- All buildings have enhanced cleaning/disinfection protocols in place, including frequent routine cleaning of high-touch areas

### What should I do if I test positive for COVID-19?

- Notify your manager via phone or e-mail.
- Leave work or do not report to work.
- Notify Benefits by calling 980-343-1754 or emailing [leavedept@cms.k12.nc.us](mailto:leavedept@cms.k12.nc.us).
- Stay isolated until you are released back to work by your physician and/or the health department's order.
- If you were in the workplace within 48 hours of experiencing symptoms, make note of any individuals at work who you may have been within six feet of for more than 15 minutes.

### When can I return to work after a positive COVID-19 test?

You must isolate until all three of the below items are true:

1. It has been at least 10 days since symptoms started, or 10 days since the test if no symptoms are experienced.
2. It has been at least 24 hours since running a fever with no fever-reducing medications used.
3. All symptoms are showing improvement.

Follow CMS' return to work process which includes having the [Return to Work Form](#) completed by a medical provider and submitting the form to Benefits before returning to work.

## What should I do if I was a close contact to someone who tested positive for COVID-19?

- Notify your supervisor by phone or email.
- Leave work or do not report to work.
- Notify Benefits by calling 980-343-1754 or emailing at [leavedept@cms.k12.nc.us](mailto:leavedept@cms.k12.nc.us).
- Self-quarantine for 14 days from the last exposure to the person who tested positive.
- Consult with your healthcare provider and/or access available testing from the [Mecklenburg County COVID-19 Testing Site Locator website](#). The decision to get tested is up to you.
- Monitor for symptoms of COVID-19 and contact your healthcare provider if you develop symptoms.
- If you have symptoms, you should be tested for COVID-19.
- If you want to get tested but do not have symptoms, you should wait five to seven days after exposure.
- If you test negative, you should remain in quarantine for 14 days since the date of last exposure.
- Co-workers do not need to be informed unless you test positive or develop symptoms. In that case, your supervisor will handle notifying co-workers, and your identity will be kept confidential.
